JOHN H. JETT
Director
Department of Mineral Resources

ARIZONA DEPARTMENT OF MINERAL RESOURCES' SERVICES AND LIBRARY AND
RESEARCH MATERIALS OF SPECIAL INTEREST TO ROCKHOUNDS AND EARTH
SCIENCE CLUBS.

THE DEPARTMENT'S LIBRARY INCLUDES:

Approximately 4,000 data files on old mines and prospects in Arizona.

Nearly every U.S. Geological Survey and U.S. Bureau of Mines publication pertaining to Arizona.

All Arizona Department of Mineral Resources and Arizona Bureau of Geology and Mineral Technology publications.

A complete set of U.S. Geological Survey topographic maps for Arizona.

A complete set of Arizona State Highway Department county road map atlases.

A large number of historical and reference books and technical periodicals.

Every issue of the Arizona Mining Journal and Pay Dirt.

The Department can be of assistance to rockhounds and Earth Science Clubs in a variety of ways. The Department can often:

Suggest collecting areas.

Assist clubs in forming good relations with mine owners and mining companies.

Assist in determining ownership of mining properties and legal status of lands.

Assist clubs in obtaining speakers and programs for meetings.

Inform rockhounds of changes in legislative and administrative rules that affect the rockhounds hobby.

Assist clubs in arranging collecting trips.

ROCKHOUND CODE OF ETHICS

- I will respect both private and public property and will do no collecting on privately owned land without the owner's, or claim holder's permission.
- I will keep informed on all laws, regulations, or rules governing collecting on public lands and will observe them.
- I will, to the best of my ability, ascertain the boundary lines of property on which I plan to collect.
- I will use no firearms or blasting material in collecting areas.
- I will cause no willful damage to property of any kind - fences, signs, buildings, etc.
- I will leave all gates as found.
- I will build fires in designated or safe places only and will be certain they are completely extinguished before leaving the area.
- I will discard no burning material - matches, cigarettes, etc.
- I will fill all excavation holes which may be dangerous to livestock.
- I will not contaminate wells, creeks, or other water supply.
- I will cause no willful damage to collecting material and will take home only what I can reasonably use.
- I will support the rockhound project H.E.L.P. (Help Eliminate Litter Please) and will leave all collecting areas devoid of litter, regardless of how found.
- I will cooperate with field trip leaders and those in designated authority in all collecting areas.
- I will report to the Bureau of Land Management, or other proper authorities, any deposit of petrified wood or other material on public land which should be protected for the enjoyment of future generations for public, educational and scientific purposes.
- I will appreciate and protect our heritage of natural resources.
- I will observe the "Golden Rule," and will use "Good Outdoor Manners," and will at all times conduct myself in a manner which will add to the stature and "Public Image" of rockhounds everywhere.

--Adopted from the American
Federation of Mineralogical
Societies Code of Ethics

INTRODUCTION

Each club is listed by club name alphabetically. The listing for each club includes all of the following, whenever available: club name, club mailing address, club president's name, time of meeting, club bulletin, bulletin editor's name, club specialty, if any, and membership restrictions, if any.

Every attempt has been made to obtain complete and correct information on every rockhound club, lapidary club and mineralogical society in Arizona. The Arizona Department of Mineral Resources regrets any errors that may have been included and would appreciate receiving any corrections or suggestions users may have for this directory.

A note about club bulletins: Club bulletins are produced for club members only and are not generally available to dealers or non-members. Many clubs do establish bulletin exchanges with other clubs.

ARIZONA DEPARTMENT OF MINERAL RESOURCES

The Department was created to aid in the promotion, development, and conservation of the mineral resources of the State. Particular emphasis is placed on providing prospectors and small miners with semi-technical assistance and economic information.

The general goal of the Department is developed by working with the following objectives:

- Provide technical assistance to prospectors and operators of small mines.
- Disseminate comprehensive mining and mineral information to the citizens and government officials of Arizona counties.
- Study conditions regarding small mine activity and seek solutions to problems.
- Serve as the State's public bureau of mining and mineral information.
- Maintain and expand the Department's mine file library.
- Provide educational services in the field of mineral resources and mining.
- Analyse proposed Federal and State administrative actions.
- Develop interagency cooperation between the Department and other local State and Federal offices.
- Gather all information available on mineral occurrences, prospects, partially developed properties and known mines in the State in order to promote further exploration.
- Provide publications in the form of mineral reports, annual directories, technical reports, annual mineral industry surveys, information circulars, and media articles.
