## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

SACRED FROG GROUP

MARICOPA COUNTY

WR KAP 6-12-78 - Lou Sacamonti, who has been assisting Cliff Clover in evaluating the Sacred Frog Group of claims, discussed conflicts over boundary lines in an office interview. He is trying to resolve the conflicts. Current phone number for Loui Sacamoni is 956-7192.      bh      11-3-78

KP/WR 1/19/79 - Cliff Clover has discovered good specimen quality oxide zone copper minerals in old workings on his Sacred Frog Property, Red Picacho Dist. Maricopa Co. He plans to commit one week to recovering specimens and additional time if the first week proves profitable. He is also interested in leasing exploration rights for the properties uranium potential. 2/22/79 a.p.

---

KP/WR 3/7/79 - He is continuing to work his Picacho #1 Mine, or Sacred Frog Mine, Red Picacho Dist., Mar. Co. for azurite and malachite specimens. 5/21/79 a.p.

MARICOPA COUNTY

WR KAP 5/16/78 - Mr. Lewis Sacamoni, a minority partner (40%) in Cliff Clover's Sacred Frog claims reported in an office visit that he and Cliff rented a Precision 111B Scintillator and "walked" the property. At three "hot spots" samples were taken which assayed 0.056%, 0.019% and 0.044%  $U_3O_8$ . It was suggested he run some lines and do a radiometric grid survey. 6/6/78 sef

GW WR 2/1/77 - silver prospect near Morgan City - Sec. 3, T7N R1W

WR KP 4/17/78 - Cliff Clover's Sacred Frog claim group was discussed with Mr. and Mrs. Lew. They are interested in helping (financially) prospect the turquoise and uranium prospect. As per suggestion on the March 17, 1978, property visit (see report of visit - Glenn Miller) Cliff Clover has sampled a source of radioactive anomaly. The sample assayed 0.05 + %  $U_3O_8$ . It has been suggested he do a radiometric ground survey and plot both grid and "hot spot" counts on a map. 5/3/78 sef
