Arizona Department of Mines and Mineral Resources Mining Collection

## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

| Docket No.                | C-ND-7669 (30)     |
| Date Application Received | August 29, 1942    |
| Date of Field Examination | June, 1942         |
| Date of Report            | September 15, 1942 |

1. Name and address of applicant (correspondent):  
Henry H. Meyer, 1021 East 9th Street, Tucson, Arizona.
2. Character of project and estimated cost thereof:  
Purchase equipment (\$2150.00) and repair all workings (\$2850.00).
3. Location of property:  
Pima Mining District, Pima County, Arizona.
4. Applicant's interest in or ownership of property:  
Applicant is owner.
5. Loan Requested:  
\$5000.00
6. Loan Recommended:  
None
7. Comments:  
(a) The only indication of anticipated ore is reference to a 6" streak of lead-silver. This is too small to be attractive in either its benefit to general metal production or in repayment of the loan. (b) Our field engineer has visited the property; while no formal report was made the verbal report was not encouraging. (c) The owner is unable to present further information which would alter the opinion above expressed.

MEMORANDUM

TO: George A. Ballam

FROM: Earl F. Hastings

We have received loan applications from Henry H. Meyer and Joseph Flannery, both residing in Tucson. Their applications are very sketchy and incomplete in so many details that I doubt if they would have much of a chance of obtaining a loan. Would you please call on them and see if you can't get some more definite information to add to the docket?

Meyer's property is known as the Bobby, located in the Pima Mining District. Flannery's property is known as the Olivette-Annette joining the property. Both apparently have some development work but the description of it is incomplete.

Meyer's address is 1021 East 9th Street, Tucson. He is applying on his own behalf and is the correspondent for the Flannery application.
