The following file is part of the

Arizona Department of Mines and Mineral Resources Mining Collection

## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

ARIZONA DEPARTMENT OF MINES AND MINERAL RESOURCES AZMILS DATA

PRIMARY NAME: SAN FRANCISCO NO. 1

ALTERNATE NAMES:

PINAL COUNTY MILS NUMBER: 541

LOCATION: TOWNSHIP 7 S RANGE 18 E SECTION 34 QUARTER N2  
LATITUDE: N 32DEG 47MIN 42SEC LONGITUDE: W 110DEG 29MIN 26SEC  
TOPO MAP NAME: OAK GROVE CANYON - 7.5 MIN

CURRENT STATUS: EXP PROSPECT

COMMODITY:

COPPER OXIDE  
MOLYBDENUM WULFENITE

BIBLIOGRAPHY:

ADMMR SAN FRANCISCO NO. 1 FILE

SAN FRANCISCO NO. 1

PINAL

We then drove to Mr. Tapia's mining claim named San Francisco No. 1 in Section 27, T7S, R18E. A near vertical fault striking N60°W contains copper oxides and wulfenite. The ore varies from one to four feet wide. I suggested to Mr. Tapia that he do the assessment work for another year. VBD WR 8/9/76

---

NJN WR 5/13/88: Dave Scott of the U S Bureau of Mines, IFOC in Denver is reviewing the Arivaipa area mineral occurrences before the BLM expands that wilderness area. He was interested in the San Francisco #1 (file) Pinal County which I discovered was mislocated in Sec 27C. The correct location is Sec 34 N2. This location is critical as the southern boundary of the land exchange for the expansion of the wilderness area includes Sec 27 but excludes Sec 34, thus leaving the property unaffected. The property is still held by Frank Tapia (card) whose new address is 1669 Circle B, Tucson, Arizona 85713.
