ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

MINE: SAWMILL CANYON PLACERS
COUNTY: PIMA
ADMMR FILE: Same as above

ENGINEER: Ken A. Phillips
DATE: February 19, 1988

SUBJECT: Office interview

Tom Stout, 7765 N. 19th Avenue, Phoenix, Arizona 85021, phone 995-5919 was in to research literature on the Sawmill Canyon (actually West Sawmill Canyon) placer area and the Greaterville District of Pima County. Considerable data was found on the Greaterville area, but very little of it was directly pertinent to Sawmill Canyon. Mr. Stout explained he is working with R. J. Skivolocki, P.O. Box 91, Homeworth, Ohio 44634 who owns a group of unpatented claims, Wrangler #2 through Wrangler #12 and the Wrangler #1 millsite in the central part of Sec. 20, T.19S., R.15E. Mr. Stout supplied a map of the claims to be included in the file. He explained that a 2 yard test sample yielded .25 troy ounces per yard. Further that the deposit does not appear to have ever been worked, nor did any of the long time local ranchers know of any prospecting activity in the canyon. The property has been added to MILS and a file made.
