Arizona Department of Mines and Mineral Resources Mining Collection

## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

SIMON MINE

Yavapai County  
Red Picacho District

---

KAP WR 10/3/80: Dennis Simon reported he has done between \$300 to \$500 worth of assessment work on his Simon Lode Claim in the Red Picacho District, Yavapai County. The work consisted of repairing and retimbering a small prospector shaft.

\_\_\_\_\_  
\_\_\_\_\_
- 18. Misc. Notes: Mr. Simon reported he did assessment work which included  
retimbering of a shaft collar and the partial clearing out of an old shaft.  
He has still not reached the bottom where rumor has it that the old timers  
mined a half ounce of gold daily. The claim is reportedly on an old mica  
property.

18. Miscl. Notes: Mr. Simon reports he has located a deposit of muscovite mica in  
→ quartz and feldspar which he feels is suitable for landscape rock. The vein  
(dike) is reportedly 3 feet wide and traceable for a minimum of 500 feet.  
It was additionally reported that "old timers" mined a half ounce of gold  
daily from veins on the same property.
