Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

SOD SHANTY GROUP

Maricopa
Yavapai County
Vulture District

KAP WR 5/12/80: Bryon Slattery, 11345 East Margarita, Apache Junction, Arizona 85220, phone 986-9627, reported he has ten claims, the Sod Shanty Group in the Vulture Mining District, Yavapai County, approximately six miles northwest of the Vulture Mine. He reported he has an 8' wide vein which runs from 70 to 300 tr.oz./ton Ag and he feels he has platinum group elements in peridotite. Samples exhibited looked like hornblend schist.

T6N R5W Sec. 7+12

6/9/80

NJN WR 4/3/85: Ken and Byron Slattery, 11345 E. Marguerite, Apache Junction, 85220, phone 986-9627 visited and brought in samples from their Sod Shanty #1-29 Claims located in T6N R5W Sec 7. This is the same area of the Lucky Four Mine (f) Maricopa County. The material they brought in consisted of hematite stained quartz vein material hosted in volcanic rocks.

March 2, 1982

Mr. Byron Slattery
11345 E. Marguerite
Apache Junction, AZ 85220

Dear Mr. Slattery:

This is to acknowledge your notice of intent to conduct mining operations on the Sod Shanty Group. If your operation will in the future involve more than 5 acres of surface disturbance, please notify us with a plan of operations.

If you have further questions, feel free to call our Area Geologist, Richard Park, at 241-2947.

Sincerely,

Frank E. Daniels

Area Manager
Lower Gila Resource Area
