Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

ARIZONA DEPARTMENT OF MINES AND MINERAL RESOURCES

VERBAL INFORMATION SUMMARY

1. Information from: Harrison Matson & Geologic Maps
2. Mine: Tuff of Bear Springs Canyon Zeolites
3. ADMMR Mine File: Same
4. County: Pinal
5. MILS Number: 760
6. Township: T6S Range: R18E Sec(s): Secs 19,29,30,31 & 32
T7S R18E Secs 4,5,8 & 9
7. USGS Topographic Map: Holy Joe Peak 7½ and Brandenburg Mtn 7½
8. Location (descriptive): Primarily in the walls of Bear Spring
Canyon in Secs 30 and 32, T6S, R18E
9. Number of Claims: None
10. Commodities: Zeolites- Clinoptilolite, Stone-Tuff
11. Operational Status: Raw Prospect
12. Summary of information received, comments, etc.:

This occurrence was added to the ADMMR Industrial Minerals Addendum by Harrison Matson while employed by the ADMMR. The Tuff of Bear Springs Canyon is described by Medor H. Krieger in her geological maps of the Brandenburg Mtn. and the Holy Joe Peak quadrangles (U.S. Geological Survey GQ-668 and GQ-669 respectively). She does not specifically mention the local alteration to clinoptilolite, that being supplied by Harrison Matson's personal information. The location of C, Sec. 32, T6S, R18E was chosen arbitrarily for AZ MILS to locate the occurrence. The addition of dimension stone as a commodity is based on my personal communication with stone companies interested in the occurrence.

Date: June 20, 1990

Ken A. Phillips
