ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

FIFE SYMINGTON, GOVERNOR
EDWARD Z. FOX, DIRECTOR

JOINT NOTICE OF PROPOSED ACTION

by the

U.S. Environmental Protection
Agency - Region IX, W-5
75 Hawthorne Street
San Francisco, CA 94105

State of Arizona
Dept. of Environmental Quality
P. O. Box 600
Phoenix, AZ 85001-0600

Telephone: (602) 207-4665

On Application for National
Pollutant Discharge Elimination
System (NPDES) Permit to
Discharge Pollutants to Waters
of the United States

On Application for Certification
for Compliance with Applicable
Effluent Limitations and
Appropriate Requirements of the
State of Arizona

The Environmental Protection Agency (EPA), Region IX, San Francisco, California, and the Arizona Department of Environmental Quality (ADEQ) are jointly issuing the following notice of proposed action under the Clean Water Act (CWA).

The Environmental Protection Agency, Region IX, San Francisco, California, has received a complete application for a National Pollutant Discharge Elimination System (NPDES) permit and has prepared tentative determinations regarding the permit.

On the basis of preliminary review of the requirements of the Clean Water Act, as amended, the implementing regulations, the Regional Administrator, Region IX, Environmental Protection Agency, proposes to issue an NPDES permit to discharge to the following applicant, subject to certain effluent limitations and special conditions:

Public Notice No. 20-92-AZ

November 2, 1992

Union Rock and Materials Corporation
P. O. Box 8007
Phoenix, Arizona 85066
NPDES Permit No. AZ0022730

The Department of Environmental Quality is An Equal Opportunity Affirmative Action Employer.

The applicant operates the aggregate pit located east of 15th Avenue on the south side of the Salt River in Phoenix. Their discharge consists of dewatering water from the aggregate pit. This discharge, at latitude 33° 24' 52" N, longitude 112° 05' 16" W, is to the Salt River. This segment of the Salt River (I-10 bridge to the 23rd Avenue WWTP) has protected uses of Aquatic and Wildlife (warm water fishery) and Partial Body Contact. The proposed permit contains effluent limits for 1,1-Dichloroethylene, Settleable Solids, Suspended Solids, Trichloroethylene and pH. The permit will expire approximately five years after it becomes effective.

The State of Arizona is considering a request to certify the discharge described above, pursuant to Section 401 of the Clean Water Act. The certification will set forth any limitations and monitoring requirements necessary to assure compliance with water quality standards under Section 303, area wide waste treatment management plans under Section 208(e), effluent limitations under Sections 301 and 302, standards of performance under Section 306, or prohibitions, effluent standards or pretreatment standards under Section 307 of the CWA, and any other appropriate requirement of State law.

The State may certify a draft permit and specify conditions which are more stringent than those in the original draft permit, where the State finds such conditions necessary to meet the requirements of the CWA. For each more stringent condition, the certifying State agency shall cite the CWA or State law references upon which that condition is based. Review of appeals of limitations and conditions attributable to State certification shall be made through the applicable procedures of the State.

The Administrative Record, which includes the application, draft permit conditions and other relevant documents, is available for public review Monday through Friday from 9:00 a.m. to 4:00 pm. at the EPA address below. A copy of the draft permit and other pertinent documents may be obtained by calling or writing to the addresses below.

Persons wishing to comment upon or object to the proposed determinations or request a public hearing pursuant to 40 CFR 124.12 should submit their comments or request in writing within 30 days from the date of this notice, either in person or by mail to:

U.S. Environmental Protection
Region IX, W-5-1
Attn.: Terry Oda
75 Hawthorne Street
San Francisco, CA 94105

Agency State of Arizona
Dept. of Environmental Quality
Attn.: Wayne H. Palsma
P. O. Box 600
Phoenix, AZ 85001-0600

Telephone: (415) 744-1923

Telephone: (602) 207-4665

All comments or objections submitted within 30 days from the date of this notice will be considered in the formulation of the final

determinations regarding the application. If the response to this notice indicates a significant degree of public desire for a public hearing, the Regional Administrator shall hold one in accordance with 40 CFR 124.12. A public notice of such hearing will be issued at least 30 days prior to the hearing. A request for a public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing.

The permit will become effective 33 days following the date of mailing by the EPA of the final permit. If no comments request a change in the draft permit, the permit will become effective three (3) days from the date of mailing.

A request for an evidentiary hearing may be submitted to the Permits Record Coordinator, W-5, within 33 days following the mailing of the final determination, in accordance with 40 CFR 124.74. If granted, applicable provisions of the permit will be stayed pending the hearing.

Please bring the foregoing notice to the attention of all persons you know would be interested in this matter.
