Arizona Department of Mines and Mineral Resources Mining Collection

## ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

DEPARTMENT OF MINERAL RESOURCES  
STATE OF ARIZONA  
OWNERS MINE REPORT

Date March 29, 1941

Mine Vindicator Group

Mining District & County - Pioneer District  
Gila County

Location - Approximately 17 miles  
southwest of Globe.

Former Name

Owner - John A. Clark

Address - Box 659, Globe, Arizona

Operator - John A. Clark

Address - Box 659, Globe, Arizona

President

Gen. Mgr.

Mine Supt.

Mill Supt.

Principal Metals - Silver, Gold, Lead

Men Employed - One

Production Rate - Intermittent

Mill: Type & Cap.

Power: Amt. & Type

Operations: Present - Starting tunnel along vein to replace shaft  
caved by recent rains.

Operations: Planned - Continue development and ship when possible.

Number Claims, Title, etc. - 7 unpatented lode claims - all on Forest.

Remarks

Description: Topography & Geography - Property situated in Pinal Mts. Approximately  
5200 ft. elevation. Typical mountainous  
topography. Oak brush and other small  
vegetation. On SW slope of mountains.

Mine Workings: Amt. & Condition - 5 shafts from 15 ft. to 60 ft. in depth.  
Approximately 160 ft. of tunnels.  
Only one tunnel is accessible at present.

John A. Clark  
Box 659, Globe, Arizona

Geology & Mineralization - Country rocks are granite, rhyolite, diabase and porphyry. Two or three veins - formed along fault fissures. Average width 7 ft. Dips are approximately 70°. Ore minerals are stephanite, argentite, galena and free gold. Assays have run as high as 6000 ozs. in silver.

Ore: Positive & Probable, Ore Dumps, Tailings. - Not sufficient development to claim any blocked out ore, but ore is showing in all working faces.

Vein Width, Length, Value, etc. - Some of the veins can be traced for a length of 2000 feet.

Mine, Mill Equipment & Flow Sheet. - None

Road Conditions, Route - Pioneer Pass road for 15 miles from Globe, then turn at sign "Clark Mine." Road leads to center of property.

Water Supply - Domestic supply developed, and all workings show water.

Brief History - Present owner has made 3 shipments within the past year.

Special Problems, Reports Filed - No reports on property. Main problem is to finance development.

Remarks

If property for sale: Price, terms and address to negotiate - For sale.  
Communicate with owner for price and terms.
