Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

INFORMATION SUMMARY

Information from: David Javorsky

Company:

Address: P.O. Box 22
City, State ZIP: Hyder, Alaska
Phone: 604-636-9186

MINE: Virginia

ADMMR Mine File: Virginia
County: Yuma
AzMILS Number: 842

SUMMARY

David Javorsky, P.O. Box 22, Hyder, Alaska, phone (604)-636-9186 is doing a reconnaissance geology project in preparation for a geophysical resistivity survey of the Allison, Thelma, and Virginia properties in the area of the BVO mine in northeastern Yuma County. He reports he is working for a joint venture between Matrix Energy (VSE) and Goose Moose (Alberta Exchange). He explained that the two companies have committed \$20,000 to initial studies and to drill a possible single diamond hole. Javorsky feels he is defining an epithermal gold occurrence.

Ken A. Phillips, Chief Engineer
