Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

WANDERING JEW

Pb, Ag, Au

Santa Cruz 12 - 1 S 12, T 21 S, R 14 E

Josiah Bond, Jr.

'39

Number Claims, Title, etc. Five unpatented lode on Coronado National Forest.

Description: Topog. & Geog. One vein outcrops on crest of prominent ridge - direction E-W- rising 600' and 1000', respectively, from gulch on north and south. Two other veins show NW.

Mine Workings: Amt. & Condition

1 shaft 200', 5 shafts 100', all incline. 1 Xcut tunnel 400';
3 Xcut tunnels 100' each. Total workings about 2000'. Old
trench 400' long between main shafts exposed vein.

(over)

Geology & Mineralization Country rocks, granite, porphyry and diorite. Vein cut both formations. Apache lode can be traced $2\frac{1}{2}$ mi., about 3000 on Wandering Jew. This vein averages about 12' wide. Developed vein av. 2.5' wide, maximum width 4 ft.

Ore: Positive & Probable, Ore Dumps, Tailings Ore showing in many places, of shipping grade. Ore of milling grade \$12.00 per ton believed to be probable, estimated at 25,000 tons. 6,000 tons tailing. 0.1 oz. Au., 1.1 oz. Ag.

Mine, Mill Equipment & Flow Sheet None

Road Conditions, Route Road from Highway to mine $2\frac{1}{2}$ miles in bad shape. Estimated cost of putting in good condition for travel \$1,000.00.

Water Supply Lower tunnel runs water regularly. Enough for small mill. 15 tons per day.

Brief History Located by Morris Lulley in early 90's. Most of development made by Wandering Jew Mining Co. (A.W.Gifford, Pres.) Operations ceased in panic of 1907. Milling done 1917-18 by F. Kohlberg, J. H. Verfurth and John Vanderwalker.

Special Problems, Reports Filed

Remarks

If property for sale: Price, terms and address to negotiate.

Signed..... Josiah Bond, Jr.
