Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

DEPARTMENT OF MINERAL RESOURCES
STATE OF ARIZONA
FIELD ENGINEERS REPORT

FILED

JAN 30 1964

Mine WEDGE GROUP Date January 14, 1964
District Blackwater Dist., Pinal County Engineer Lewis A. Smith
Subject: Visit with Donald McCarthy, Consulting Geologist, 12,17,63 and Conferences
with R. B. Rodney and D. S. Lyon (owners).

PROPERTY: 48 unpatented claims.

LOCATION: Nearly all of S34, T3S, R7E. (31 claims).
Most of the N $\frac{1}{2}$ S-35 (9 claims).
SW $\frac{1}{4}$ of S-35 (4 Claims).
SE $\frac{1}{4}$ of S-33 (6 Claims).

OWNERS: R. B. Rodney, 265 W. 1st Street, Mesa. ($\frac{1}{2}$)
D. S. Lyon, 8737 E. Bonnie Rose Ave., Scottsdale ($\frac{1}{2}$)
Also, Arizona Bank, Mesa.

MINERAL: Copper and Gold.

WORK: Other than location pits and bulldozer cuts, three 1000-ft test holes were drilled prior to the acquisition of the claims by the present holders. R. B. Rodney reported that one of these holes had a deep thickness of copper ore and all three showed ore. Leached capping depths are not definitely known, but ore was close to the surface in one.

GEOLOGY: About half of the claims are on the narrow schist covered ridge that occupies the north half of sections 34 and 35. The rest are within the pediment belt. The pediment belt is described under "Mineral Butte" claims, and the Apache Maid Group description generally applies to the ridge portion. Diabase intermittently appears in two claims in the north part of the claims in Sec-34.
