## **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

## **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

## **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

(White Horse)

Dough Boy Mine (formerly White Horse)

T. 14 N., R. 8 W.

Yavapai County

reference: Arizona Dept of Mineral Resources  
Dough boy Yavapai County (file)

minerals: gold, silver

present owner:

history of the area:

the Dough Boy Mine was formerly called the White Horse. It was relocated as the Dough Boy. In 1940 the property was owned by Frank Howard and Luther Roach of Millside, Arizona. They did some timbering and stoping. Robert Kipp of Bagdad operated the property for a while. By mid 1946 the property was idle.

geology:

granite in the area

property consists of 2 recorded and 2 located claims
