Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

MINE OWNER'S REPORT

Date

1. Mine: *White Star Group 1 of 10 claims*
2. Location: Sec. *27* Twp. *2E* Range *7N* Nearest Town *Rock Spring* Distance *approx 5 miles*
Direction *North* Nearest R.R. Distance
Road Conditions *Just west of Old Black Canyon*
3. Mining District and County: *New River District*
4. Former Name of Mine: *Not known*
5. Owner: *Frank Henderson*
Address:
6. Operator: *S*
Address:
7. Principal Minerals: *This is in Pegmatite*
8. Number of Claims: Lode *Yes* Patented *No* Unpatented
Placer Patented Unpatented
9. Type of Surrounding Terrain: *Rough*
10. Geology and Mineralization: *Pegmatite plus large amount of sericite 7 or 8 colors, white is wanted by paint companies but so far will not take because of fine red spots in the white sericite.*
11. Dimension and Value of Ore Body: *Not known*

Please give as complete information as possible and attach copies of engineer's reports, shipment returns, maps, etc. if you wish to have them available in this Department's files for inspection by prospective lessors or buyers.

12. Ore "Blocked Out" or "In sight":.....

Ore Probable: *Such as is usually found in pegmatites, plus the sericite as noted*

13. Mine Workings—Amount and Condition:.....

No.	Feet	Condition
Shafts.....		
Raises.....		
Tunnels.....		
Crosscuts.....		
Stopes.....		

14. Water Supply: *None as yet, but since we are less than mile above New River at slightly higher level, do not anticipate difficulty.*

15. Brief History: *We have done location work and have tried to lease, so far without result, due to red spots in sericite. When we first located we sent samples to Tucson. Their report showed Feldspar, Barite and 7 or 8 other non-metallic materials.*

16. Remarks: *We had it leased to Frank Henderson who has just returned and says he intends to drill in near future.*

17. If Property for Sale, List Approximate Price and Terms: *Exploration work not far enough along to estimate probable values.*

18. Signature: *Charles H. Randolph, George J. J. J. J., and Tom Williams joint holders of Group 1 of 10 claims. White Star # 1*
