ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Wickenburg, AZ. 85358

Dear People,

At the request of our client, a preliminary title and ownership search was conducted on Sections 2, 3, 10, and 11, Township 8 North Range 4 West.

On April 13, 1983, portions of the above sections were released from withdrawal and opened for mineral entry. At 10:02 AM, the Gill Claims were recorded with the County and then with the BLM. However, there are certain omissions and errors with your filings, to wit:

- 1) The location papers in the field show a date different than that on file with the BLM. The papers of record on file with the BLM show a location date of 2/1/83, which was prior to the availability of mineral entry.
- 2) The location papers on file fail to show the Mining District, or, in error, indicate the claims are in Weaver Mining District instead of Black Rock Mining District.

There is no County recording data on the location notices on file with the BLM nor a codicil to the notices indicating same.

- 3) The Gill #15, 16, 17 & 18 Lode claims are filed as "association claims". The mining regulations allow placers to be filed with as many as 8 associates for a total of 160 acres. However, a lode claim may be only 20 acres in total area and have as many owners as desired for each single claim.
- 4) Because your claims were staked within the assessment year of 1982-83, and prior to December of 1983, the regulations require either an Affidavit of Labor or Intention to Hold notification be filed prior to December 30, 1983. There is no indication of such documents filed by the deadline.

Gill Claims
March 15, 1984
Page Two

It is the opinion of this company that your Gill #1-18 placer and lode claims will be deemed "Null and Void" by the Department of the Interior, Bureau of Land Management on the basis of a location date prior to the opening date of mineral entry, failure to file affidavit of labor or Intention to Hold and lode claims containing in excess of 20 acres each.

If the validity of your claims were to be challenged in a civil court, we believe a decision would be based upon the regulations as presented in:

The Federal Land Policy Management Act; The Federal Mining Laws, Title 30 (Mineral Lands and Mining); Title 43 (Public Lands) of the United States Code; Title 43 (Public Lands) of the Code of Federal Regulations; Title 27 (Minerals, Oils & Gas); and Title 37 (Public Lands) of the Arizona Revised Statutes.

which collectively require:

- 1) Location must be on land open to mineral entry.
- 2) Location notices recorded in pertinent County.
- 3) Location notice filed showing evidence of County recording with the Bureau of Land Management.
- 4) Lode claims may contain no more than 20 acres.
- 5) Affidavit of Labor or Intention to Hold timely filed with pertinent County and Bureau of Land Management.

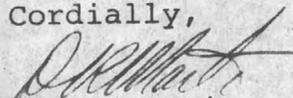

NOTE: Some of the above requirements are now being challenged in the Courts, but as of this date no ruling has been made nor changes or amendments issued.

We are sorry to relate the above. No doubt you all have expended time, labor and funds to acquire and hold the Gill Claims.

If we may be of service to you or render an opinion in the future, please contact us. We will be happy to assist.

Enclosed are pages of a Federal publication that may be of some use in the future.

NOTICE OF MINING CLAIM LOCATION

- 1. Location Amendment Relocation
- 2. Placer Lode Millsite Tunnelsite

3. The name and address of the Locator is James R. Gill Jr, Group
Bobby Westbrook, Wanda Westbrook, Billy E. Poe
Treva L. Poe, Willett Naylor, Bert L. Smith, J. Russel Gill
Name

P.O. Box 20370
Address

Wickenburg Arizona 85358
City State Zip

4. The name of the claim is Gill # 7

5. The date of the location is 4-13-83

6. The claim is 2640 feet long and 2640 feet wide. The distance from the Location monument to each end of the claim is 2640 feet in a North direction and 2640 feet in a West direction.

7. The general course of the claim is from the South to the North

8. The location of the claim is in Section 3, Township 8N, Range 4W
G&SRB&M, Weaver Mining District, Yavapai County, Arizona.

9. If amending or relocating, the previous claim name was _____
_____ recorded in Docket _____, Book _____,
_____ Mining District, _____ County, Arizona.

10. The location of the claim with reference to a natural object or permanent monument is a
brass cap in the South East Corner
and 3 wooden monuments (posts) in
the other corners. This is the Southeast
Quarter of section 3 and contains Apx. 160 Acres.
