ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Dear Mrs. Ahlers:

Enclosed is a data sheet which we would like you to fill out as best you can on your property in the Cerbats. At the moment we have no immediate interest in your claims; however, if we know a little better their location, then our interest may increase. Therefore, I urge you to fill out the enclosed form and return in the self-addressed envelope enclosed.

Thank you again for presenting your property for our consideration.

Very truly yours,

E. Grover Heinrichs
Assistant Manager Exploration

Dear Sir would your company
 be interested in a 69-acre group of claims
 on U.S. land unpatented in the Cerbat
 mountains 11 miles from
 Kingman,

near Dulak plant and properties. Good roads in
 all assessment complete and on record here - 2 miles
 off highway 93-

Have good silver and other minerals with exploration
 there may be more and copper. This is the largest
 group for sale in the Cerbat now. I have other claims
 near Kingman. The big group is the largest and in
 a promising area.

See your Arizona aeromagnetic map - all shows good
 ore in Mohave county.

Will be glad to show the properties any time.
 Will send assays etc. if you want them. There
 is white light ^{near by}

P.S.
 Come over and
 check out Kingman area
 there is a lot of interest
 in mining here
 now.

Sincerely,
 Mr. Ahlers
 Member of Arizona Small Mine Operator Association.

She continues to interest major companies in her 70 odd
claims south of Mineral Park. GW WR 10/3/73

Reported to Mr. Jett in letter of 12/8/80 that she has
leased her claims to a DBL Corporation.
