#### **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

#### **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

#### **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

COASTAL MINING CO.  
112 S. Van Buren Ave.  
Tucson, Ariz.

Dear Sir;

We have a mining property near Tucson, which we would like to sell.

In the last 2 years, we have shipped 18,000 tons of 0.8% cu flux ore with smelter returns of \$135,000.

Cominco American took an option, and core drilled the property. They drilled 9 holes ranging in depth from 170' to 947' with a total footage of 5300 feet.

Their drilling indicated a low grade, mostly oxide ore which did not meet their expectations and they dropped their option.

This ore body is substantial and might be suitable for a leaching operation.

If you are interested in seeing the property, please call me.

Sincerely,

*Floyd Stump*
