ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Dear Mr. Temple;

Thank you for your letter of February 14th. We appreciate your position in regard to the necessity of having a specific project before discussing method of payment.

We will keep your name on file, and should our other interested parties decide not to carry on with us, we will contact you.

Thank you very much.

Cordially,

Dear Ms. Dyatt:

Thank you for the discussions we held at the Brown Palace Hotel on Feb. 9, 1974.

After consideration it has been decided not to raise the question of stock transfer with Essex management until it can be tied to a specific project. It will be an option worthy of consideration at that time.

Please inform us when your Cumberland Pass, Ironton, or other properties become available for consideration. Our Colorado program will continue for several years and hopefully will include your properties.

Very truly yours,

Dennis C. Temple
Senior Geologist

Dear Ms. Dyatt:

This letter is in reference to the claims located by Napoleon Mines Inc. in T51N, R4E, N.M.B.L. and M.

Essex International, Inc. is a major electrical products manufacturing company, interested in the exploration for and development of mining properties. This property was noted during reconnaissance activities last summer. As a follow-up to this program and if you are interested, I would like to meet with a representative of Napoleon Mines Inc. for discussions concerning these claims.

I plan a trip to Colorado during February. Please let me know if it is possible for us to meet.

Respectfully yours,

Dennis C. Temple
