The following file is part of the Grover Heinrichs Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

(9)

mineralization are reported in the literature.

Exxon Co. has located 29 claims at Matherhorn Creek, west of Lake City. This group does not appear to be on the most favorable ground.

F.W. Baumgartner has located 16 claims at the Iron Beds, west of Lake City. This property is on the south side of the favorable altered area north of Broken Hill.

Earth Sciences Inc. has located 37 claims between Matherhorn Peak and Broken Hill, west of Lake City. This property is located over an intensely altered area. They are reportedly exploring for alunite.

Earth Sciences Inc. has located 27 claims on Red Mountain, south of Lake City. This group covers the most intense alteration in this area.

Exxon Company controls approximately 80 claims in the Carson Creek area north of Lake City. No alteration of interest was seen in this area, but the literature reports some mineralization associated with stocks in this area.

Gunnison County

Bear Creek Mining Co. has located approximately 50 claims on Gold Creek north of Ohio City. This area was not visited.
