The following file is part of the Grover Heinrichs Mining Collection

#### **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

#### **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

#### **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

 La Plata Map Dist.

September 20, 1972

Mr. Les West  
821 Relation Street  
Safford, Arizona 85546

Dear Les,

Enclosed is your plat on the property in the La Plata Mining District of Southern Colorado.

I count 32 claims that are circled on the plat, and you mentioned 39 claims are contained in the group for sale. Therefore, I assume that the other seven claims likely join on the east and off the sheet.

I am currently preparing a summary of the deal (ordering maps, etc.) for management review. I don't expect any decision, though, for some time yet.

Hope to be in Safford next week and will see you then.

Enclosed is a current Essex annual report which I thought you might like for your file.

Very truly yours,

E. Grover Heinrichs  
Assistant Manager Exploration

## INTERSTATE HIGHWAYS

PRINCIPAL ROUTES: Red, white and blue signs with 1 or 2-digit numbers.  
East-west routes have even numbers. North-south routes have odd numbers.

LOOP OR BELT ROUTES: These circle or bypass cities. 3-digit numbers, first number even.

BUSINESS ROUTES: Green signs. These mark routes from principal, loop or belt highways, to or through cities.

This map shows Interstate Highways with these symbols:
