The following file is part of the Grover Heinrichs Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

December 13, 1973

Ms. Delsie M. Crowley
Box 1135
Grand Junction, Colorado 81501

Dear Ms. Crowley:

This letter is in reference to the claims you have located in T41N, R10W, N.M.B.L. and M.

Essex International, Inc. is a major electrical products manufacturing company, interested in the exploration for and development of mining properties. This property was noted during reconnaissance activities last summer. As a follow-up to this program and if you are interested, I would like to meet with you for discussions concerning these claims.

I plan a trip to Colorado during February. Please let me know if it is possible for us to meet.

Respectfully yours,

Dennis C. Temple
Senior Geologist

ESSEX INTERNATIONAL, INC.

95. Geology of the Mount Wilson Quadrangle,
Western San Juan Mountains, Colorado

Calvin S. Bromfield, 1967

96. Geologic Map of the Dolores Peak Quadrangle,
Dolores and San Miguel Counties, Colorado.

A. L. Bush and C. S. Bromfield, 1966

97. Preliminary Geologic Map of the Gray Head
Quadrangle, San Miguel County, Colorado

Alfred L. Bush, Calvin S. Bromfield,

Owen T. Marsh and Richard B. Taylor, 1961

98. Areal Geology of the Little Cone Quadrangle,
Colorado

A. L. Bush, O. T. Marsh and R. B. Taylor, 1960

noting the alterations near the top

of this area is similar to that found

in the deeper graded zones of other

altered areas. Assembly of specimens

of altered individuals indicates a

discovery in excess of 200,000,000 tons

of plus 1% copper approximately 2,000

feet deep. No announcement has been

made. Reportedly assessment work was

performed during September. Apparently

Exxon does not control several patented

claims and needs to finalize them.

property situation before proceeding.

Dolores County

The Finacorda Company controls

at least 40 claims at Calico Peak,

west of Rice. For assessment work, they

have been drilling an angle hole

intended to intersect a large area

below the Calico Peak alteration zone

at a depth of 4000 feet. The hole

is approximately 500 feet deep.

at this time. Reportedly, Exxon Corp.

recently located claims in the Rice

area.

Son Miguel County

Delsie M. Crowley has located

approximately 40 claims on Wilson

Creek, south west of Chuir. An altered

area was seen at this location. Contact

will be made in order to determine the

availability of this property.
