Subject: Land

Description: T4S, R9E, Section 31
Parcels W1/2, SW1/4NE1/4 and W1/2SE1/4

T5S, R9E, Section 6, the part of Lot 2 North of the Canal

Total Acreage: 465.50

On March 13 I met with Mr. Virgil W. Chandler and after some discussion, the following terms were arrived at:

1. Option period: Six (6) months
2. Consideration on signing: $1,000.00
3. Purchase price: $697,500.00

The purchase price amounts to a little less than $1,500.00 per acre. Besides being an attorney for approximately 40 years, Mr. Chandler is also a successful farmer. He mentioned some limitations that might arise for future farming due to certain restrictions on the wells he has drilled on the subject property which I explained to you today on the telephone. He wishes to include an addendum spelling out these restrictions to be included in the Option Agreement. Enclosed please find a plat showing the Chandler land and wells.

Mr. Chandler advised that Conoco had an Option approximately seven years ago on the property which they did not exercise. Asarco also had an Option and drilled one hole which is shown on the enclosed plat.

If you could please prepare and send me the number of executed Option Agreements and Memorandum of Option Agreements, I will take them to Mr. Chandler for his signature and the payment of $1,000.00

Phone: (602) 277-6203

Subject: Property shown on plat, approximately 960 Acres

I have spoken to Mrs. Bolin and her son three times, and on March 12 they advised that they are presently negotiating with Exxon and that they would not like to discuss anything further for two weeks. If I do not hear from them by that time, I will contact them again. They also advised that Conoco had an Option on their property several years ago.

Priority No. 3: Woodman Moore
Box 1463
Coolidge, Arizona 85228
Phone: (602) 723-3665

Subject: Property shown on plat, 205 Acres

On March 13, 1979, I called on Mr. Woodman Moore at his home and he advised that in 1976-77, Conoco had a 3-year Option on his property. The consideration for signing at the start of each three years was $35000.00. The purchase price was $1500.00 per acre. After paying the $35000.00 for the first year, Conoco dropped their Option at the end of nine months. No drilling was done.

Exxon is presently negotiating with Mr. Moore and I had a brief chance to see their Agreement. The essential points were as follows:

1.	Option period:	Ten (10 Years
2.	Purchase price:	Appraised value + 50% at the time of exercise
3.	Payments during Option:	$5.00 per acre for the 1st year, with an annual increase of $5.00 per acre until $15.00 per acre is reached.
4.	Royalty (NSR):	Less than 1000 feet: 3% Between 1000 feet and 2000 feet: 2% 2000 feet or more: 1%

Mr. Moore advised that he was 77 years old and the property has made and continues to make him all the money he needs, and he estimates the property would be presently appraised from $2000.00 to $2500.00 per acre due to the fact that the property is excellently leveled and ditched. He has an excellent well and he feels it is the prime farm in the area. He wishes to continue to negotiate with Exxon before any further negotiations. From the appearance of his home, both outside and inside, it would appear that Mr. Moore is extremely well off.
