ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

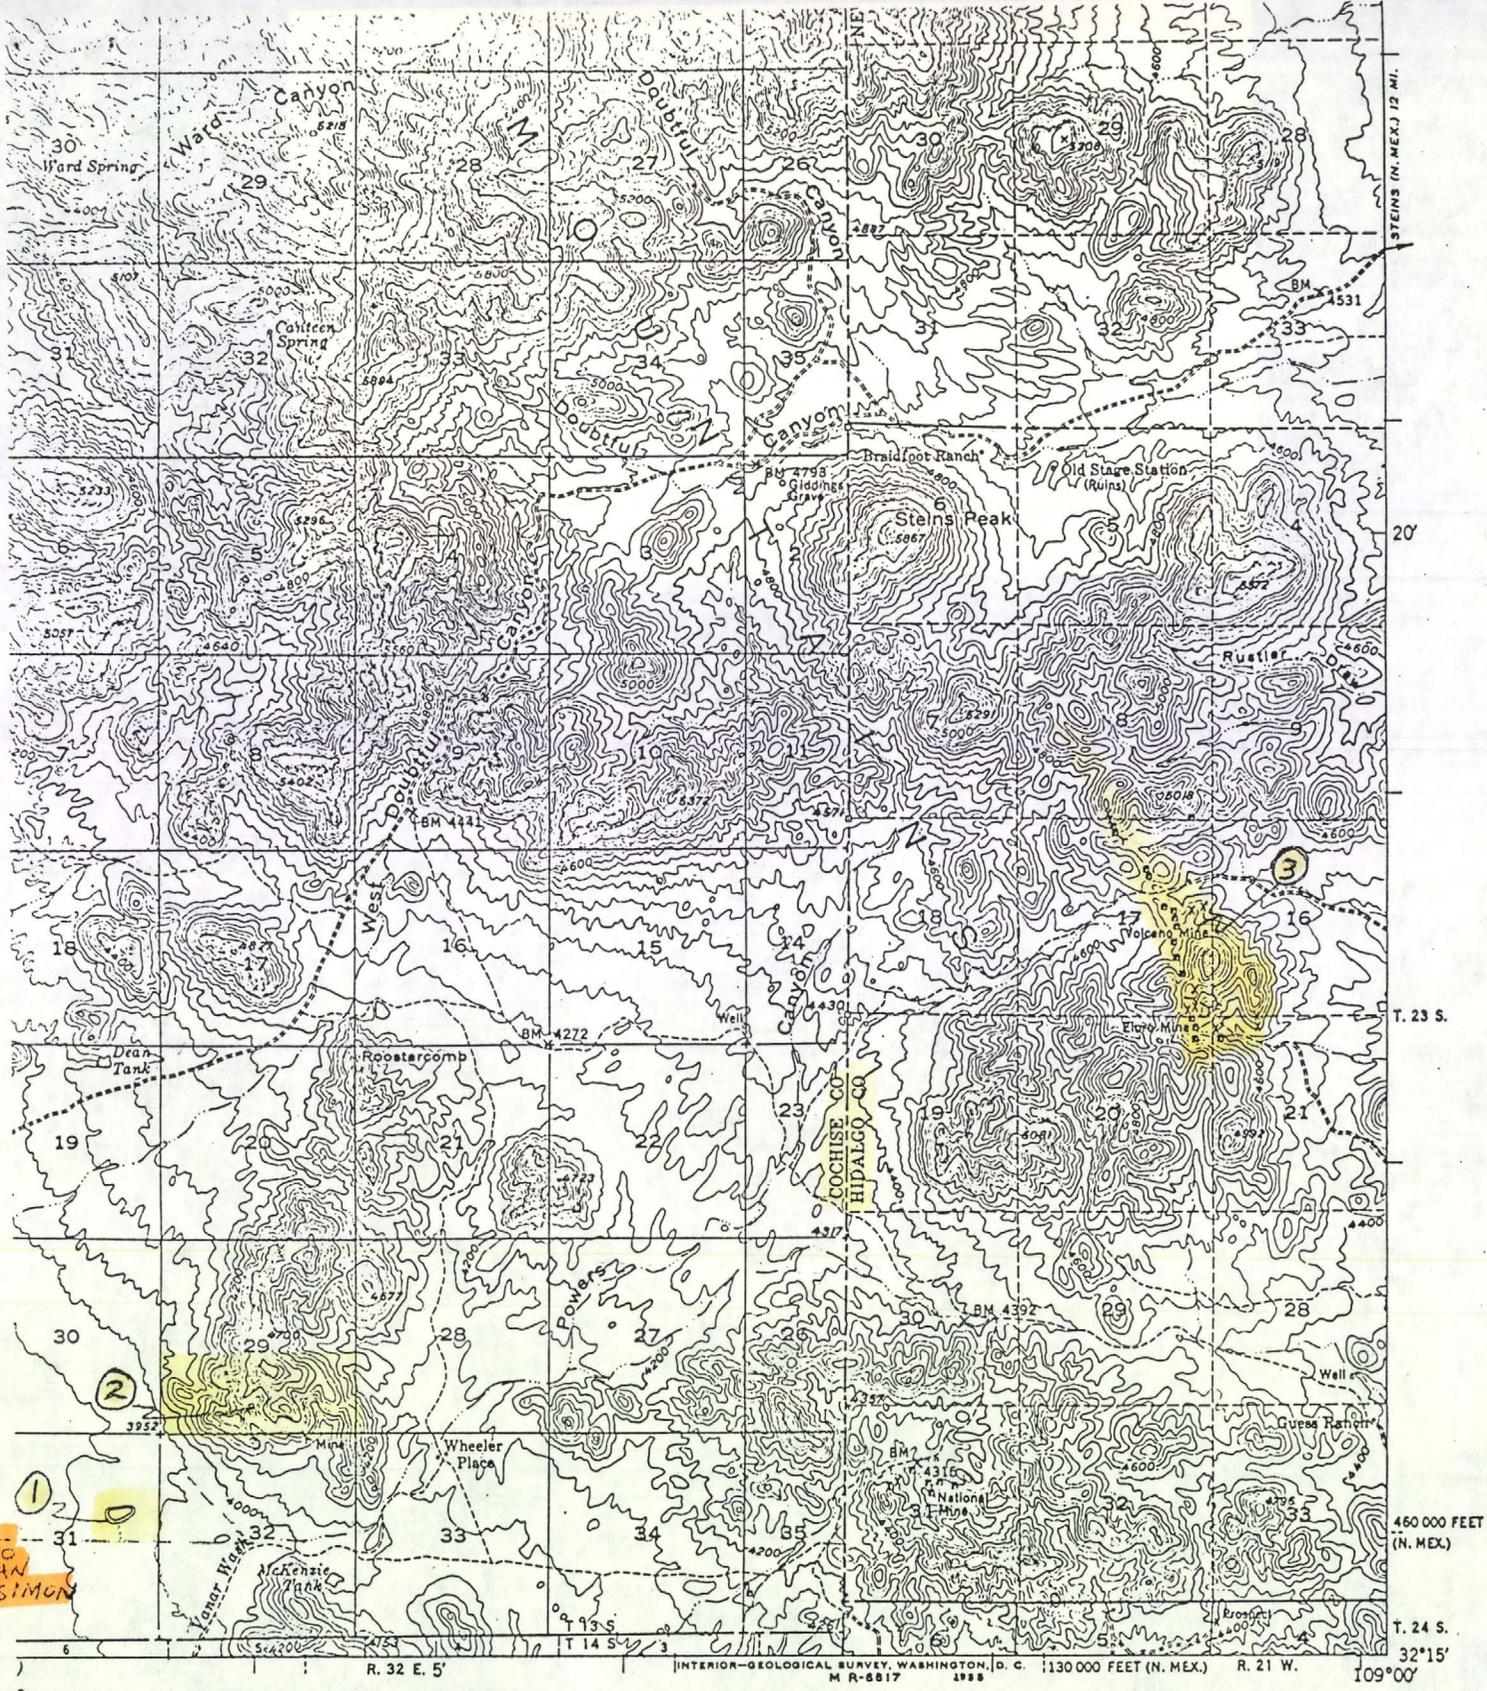

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

AFFIDAVIT OF PERFORMANCE OF ANNUAL LABOR

STATE OF ARIZONA

COUNTY OF COCHISE SS

Charles R. Sewell, being duly sworn, deposes and says:

That he/she is a citizen of the United States, more than eighteen (18) years of age and resides at 9950 East Broadway Tucson, Arizona 85748, Pima County, Arizona:

That he/she is personally acquainted with the following unpatented mining claims situated in the San Simon Mining District, Cochise County, Arizona, the name(s), book(s), and page(s) of recording of the location notice(s) in the office of the recorder of said county and the BLM serial numbers of which are as follows:

<u>Claim Name</u>	<u>Recorded</u>		<u>AMC No.</u>
	<u>(Dkt)Book</u>	<u>Page</u>	
Ellen	1616	88-89	185960
Jeremy	1616	91-92	185961
Chuck	1616	76-77	185959
Charles	1616	85-86	185958
Jim	1616	82-83	185962
Betty	1616	79-80	185957

That the notices of location of said claims are posted within the following Section(s), Township(s), and Range(s): Sec. 29, T 13S, R 32E, G&SRM, Arizona; That Charles R. Sewell, whose address is 9950 East Broadway Tucson, Arizona 85748, is the owner of the above described claims; That between the 2nd day of September, 1985 and the 31st day of August, 1986, at least \$ 600.00 dollars worth of work and improvements were done and performed upon or for the benefit of each of the said claims, not including the location work of the said claims; That such work and improvements consisted of a geological survey - conducted for the benefit of the mineralization on the Ellen claim group, as described above.

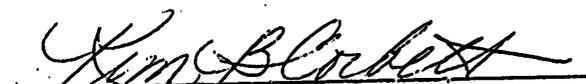

and were performed by M.S. Sewell (geologist) - see exhibit C.; That all of the above described work and improvements were performed by or at the expense of Charles R. Sewell, for the purpose of complying with the laws of the United States pertaining to assessment or annual work.

Dated this 10th day of October, 1986.

Charles R. Sewell

ELLEN CLAIM GROUP, SAN SIMON MINING DISTRICT
COCHISE COUNTY, ARIZONA

During the 1986 field season (Sept. 1, 1985 to August 31, 1986) Sewell Mineral Exploration conducted a geological survey on the six (6) unpatented mining claims owned by Mr. Charles R. Sewell.

This geological survey was conducted to better understand the mineralization contained within the ELLEN CLAIM GROUP. The survey was performed by Mr. Michael Sewell (geologist) under the supervision of Mr. Charles R. Sewell (who holds a M.S. degree in geology and has 30+ years experience in the mineral exploration field). Mr. Michael Sewell holds a B.S. degree in geology and has 7+ years experience in the mineral exploration field.

The survey found that the six (6) unpatented claims are located on pyritized volcanic rocks, probably the Vanar Hills Fm. These volcanic rocks have been invaded by a number of small - moderate size intrusive bodies, most likely Tertiary in age. Areas in the vicinity of the intrusive rocks are intensely sheared and brecciated. Hydrothermal alteration (argillic) is extensive in these brecciated areas. The entire complex is cut by a series of large hydrothermal quartz veins. Excavation, drilling, and sampling in the vicinity of the quartz veins has discovered precious metal mineralization.

MARGARET CLAIM GROUP, SAN SIMON MINING DISTRICT
COCHISE COUNTY, ARIZONA

During the 1986 field season (Sept. 1, 1985 to August 31, 1986) Sewell Mineral Exploration conducted a geological survey on the four (4) unpatented mining claims owned by Mr. Charles R. Sewell.

This geological survey was conducted to better understand the mineralization contained within the MARGARET CLAIM GROUP. The geological survey was performed by Mr. Michael Sewell (geologist) under the supervision of Mr. Charles R. Sewell (who holds an M.S. degree in geology and has 30+ years experience in the mineral exploration field). Mr. Michael Sewell holds an B.S. degree in geology and has 7+ years in the mineral exploration field.

The survey concluded that the four unpatented claims in the Margaret group cover an outcrop of pyritized rhyolite. The central portion of the outcrop appears to be intensely brecciated and silicified. A northeast trending breccia zone cuts across both the pyritized rhyolite and central breccia zone. A number of large hydrothermal quartz veins are associated with this N.E. trending feature. Excavation, drilling, and sampling along the west side of this trend have exposed precious metal mineralization.
