ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Dear Randy:

You have requested that Joe Wilkins furnish data to Cambior USA, hereinafter (Cambior) pertaining to the Walnut Grove Project, located in Section 10, T11N R2W Yavapai County, Arizona(Figure 1).

I. Purpose

The sole purpose of furnishing such information to Cambior is to permit Cambior to assess the information in contemplation of a sale, lease, joint venture or assignment by Joe Wilkins of all or portion of Joe Wilkins' interest in the Project.

II. Confidential Information

A. In consideration of Joe Wilkins furnishing such information, Cambior agrees to hold in confidence and not use or to disclose to any person, except for the sole purpose of evaluating the Project for possible participation in said Project, the following: information relating to exploration, land, mineral rights, geologic data; and any and all analyses, reports, studies. All of the above shall hereinafter be collectively referred to as "Confidential Information"; provided, however, such terms shall not include the following:

- (1) Information that at the time of disclosure in the public domain;
- (2) Information that after disclosed is published or otherwise becomes part of the public domain through no fault of Cambior.
- (3) Information known to Cambior prior to the time of disclosure to Cambior from Joe Wilkins.
- (4) Information disclosed to Cambior by a third party, so long as such disclosure does not violate said third party's duty of confidentiality to Joe Wilkins if any.

B. Cambior acknowledges that unauthorized disclosure of confidential Information may cause significant damage and harm to Joe Wilkins.

III. Area of Interest

If Cambior locates mining claims after the effective date of this Agreement, any part of which is within two (2) miles from the exterior boundaries of the Property (the "Area of Interest") such claims shall become part of the Property upon Joe Wilkins' election to include such claims.

IV. Term of Agreement

This Confidentiality Agreement shall terminate upon execution by Cambior and Joe Wilkins signing an agreement whereunder Cambior acquires an interest from Joe Wilkins in and to the Project. If Cambior and Joe Wilkins fail to enter into such an agreement, Sections I, II, III and IV of this Confidentiality Agreement shall continue in effect until the date two (2) years from the date hereof, whichever later occurs.

Very truly yours

Re: Walnut Grove Porphyry Copper Target, Yavapai County, Arizona

Dear Randy:

I recently staked 18 lode claims over a buried target, generated by lineament projections. The target is located under shallow(?) Tertiary cover in unextended-unrotated terrain and may contain a fully preserved chalcocite-enriched porphyry copper deposit. The target is a long shot, but if intact, could contain 100 to 200 million tons of chalcocite enriched ore at a grade of 1 to 2.5 % Cu.

If you are interested in examining the data and the property, please sign the attached confidentiality agreement.

Sincerely

Joe Wilkins
