The following file is part of the Kelsey Boltz Mining Collection

#### **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

#### **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

#### **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

URANIUM PROSPECT

THE NATURAL RESOURCE GROUP, LTD.

---

*Project:* 21 A • 77

*Property:* Red Lake - Eric Dawn

*Location:* Mohave County, Arizona  
Sections 22, 24, 26, 34, T27N, R17W  
Sections 4, 10, 12, 14, 22, 24, 26, T26N, R17W  
Sections 30, T27N, R16W  
Sections 6, 8, 10, 18, 20, 28, 30, T26N, R16W  
Sections 4, 6, T25N, R16W

*Claims:* 840 Claims representing 13,440 acres

*Findings:* Mineralization occurs in the Cerbat Mountains on the SW side of Red Lake, in the Music Mountains to the East; and in Lost Basin to the north. Red Lake is a topographic depression with a hydrologic basin at depth sloping north to the Colorado River. Deep test wells show anomalous zones. Section 22, contiguous to the stated claims shows an anomaly over an interval of 346 feet where the gamma-ray count reached, or exceeded, 500 A.D.I. units. Surface radioactivity at Red Lake runs 2x to 4x over background at Kingman. Commercial uranium deposits are being developed in the Date Creek Basin south of Red Lake. Vicinity map and Claims map attached.
