MEMORANDUM TO: JAMES C. PLOWDEN-WARDLAW

FROM: THOMAS H. SCHLOSS  
DWIGHT E. LEE

---

### Introduction

The purpose of this memo is to acquaint the reader with the business history, investment activities, and future plans of Schloss Bros..

Schloss Bros. was established in 1895 as a Corporation and has been under present control since 1933. It was reorganized as a limited partnership in 1944, and remains in that form today governed by the laws of the State of Indiana.

The partners of Schloss Bros. are primarily the families of William L. Schloss, and Ernest R. Lee (deceased). The general and limited partners have continued to believe that their funds can be managed most efficiently as a family group and with a diversified portfolio of investments.

The current active general partners are William L. Schloss, Thomas H. Schloss and Robert E. Schloss, his sons, and Dwight E. Lee, Ernest Lee's son.

### Business History

Having made original investments in real estate, securities, and retailing in the early part of this century, William L. Schloss and his father in 1936 purchased the Indianapolis Morris Plan, an industrial loan and investment company. In 1947, the Schloss family formed Economy Finance Corp., a consumer and industrial finance company with William Schloss as Chairman and Ernest Lee as President. By 1971, when the company was sold to CIC Leasing Corporation of Buffalo, N. Y., a subsidiary of Mortgage Guarantee Insurance Corp., (MGIC) for cash and notes, it had total assets of \$160,000,000. No partner of Schloss Bros. is currently affiliated with Economy Finance in an active capacity.

Economy from its founding was a pioneer in various types of credit. Morris Plan was founded at a time when the American working man was unable to borrow from commercial banks. The farsightedness of William Schloss' decision to enter this field has been well established today as commercial banks compete vigorously for the business of individuals.

Economy Finance was early in providing funds to individuals for the financing of such durable goods as automobiles and mobile homes. In addition, it was an early entry in the consumer charge card business in the U. S. and a forerunner of such groups as Master Charge and BankAmericard.

In the commercial area, Economy was one of the first companies to realize the future potential of Community Antenna Television (CATV), and through 1970 had financed approximately 25% of the systems in this country.

Thomas Schloss, Bob Schloss, and Dwight Lee have all worked for Economy in various capacities.

#### Investment Activities

Schloss Bros. currently invests in five general areas. Tax shelters are handled by William Schloss. The building and management of CATV systems are handled by Bob Schloss. Dwight Lee and Thomas Schloss manage investments in the areas of public equity securities, venture capital, and the arbitrage of convertible securities.

This memorandum will concentrate on these last three activities. In the summer of 1971 Thomas Schloss and Dwight Lee formed the Shoreline Group in New York to formally carry on these last three investment activities for Schloss Bros., and other clients.

In 1967 the liquid assets of Schloss were being managed by an investment advisory firm. Upon the retirement of the principals, the task of finding a substitute fell to Thomas Schloss. He was joined not long thereafter by Dwight Lee. They interviewed bank trust departments mutual fund managers, brokerage firms, and investment advisors for almost one year trying to determine how best to approach the problem of managing money in the stock market. Finally they discovered the "hedge fund", or private partnership, as Schloss Bros. prefers to call them, since none of the partnerships in which Schloss Bros. invests practice the traditional hedge concept of always being both long and short in the market. These are limited partnerships in which the general partners manage the funds of the limited partners for a percentage of the profits. Conceptually, we determined that this

structure was the only one which made the interests of the investor and manager coincident. We also insist that the general partners have a substantial amount of their own funds invested. Thus, if the limited partners do well, so will the general partners; but if the limiteds lose money the general partners will not only not make money, but will also lose capital. Subsequently, Schloss Bros. has made investments in more than a dozen partnerships.

It is through the private partnership that Schloss Bros. invests in the American security markets in the conventional way; that is by taking either long or short positions in given securities, based on both fundamentals research and technical opinions.

In 1969 Schloss Bros. decided that it should begin to invest in companies before a public market developed; and we began researching the area of venture capital. Again our concept was to identify experts in this field and then structure an investment so as to reduce all conflicts of interest between the investor and the manager. We determined that venture capital managers who take an active role in the management of their portfolio companies may do better than those who take a more passive role. To date, Schloss Bros. has invested in two limited partnerships engaged in venture capital. In addition, Schloss Bros. on the advice of the Shoreline Group makes venture investments directly after thoroughly researching the company, the market for the product or service, and the people involved.

In the middle of 1970, noting the unpredictability of the American stock market, Thomas Schloss and Dwight Lee began looking for a conservative investment, one that would offer a consistent and reasonable return with minimum risk. After much research, they determined this need could be best fulfilled through the arbitrage of convertible securities.

Early in 1971 they formed Triforium Partners with the two of them as general partners and Schloss Bros. as the principal limited partner. At the beginning of 1972 Triforium had paid-in capital of \$10,000,000.

In order to reduce market risks, achieve diversification of management and utilize different investment philosophies, the partnership has allocated the investment of its funds to three groups of money managers.

This hedge-arbitrage program involves investing in two securities of the same company, one of which is convertible into the other, i.e. a convertible bond and the common stock into which it is convertible. Certain historical mathematical price relationships exist between these two securities. When one of them is underpriced compared to the other, a hedge may be set up by buying the relatively underpriced security, i.e. the convertible bond, and selling short an appropriate amount of the relatively overpriced security, i.e. the common stock.

When the price of these securities return to their normal relationship, the hedge is reversed and closed out.

Since the partnership is simultaneously long and short two different securities, of the same company, the risk of capital loss is small. The term of investment in each position has averaged less than 60 days.

Conceptually, these three areas form an investment continuum from the high risk to the very conservative. We view risk as a combined function of expected return and the probability of capital loss. A high risk investment is thus defined as one with a potential high return but also a high probability of capital loss. A conservative investment, on the other hand, is one with a lower expected return, but also a low probability of capital loss.

As a result, one is able to allocate total capital to these three areas on the basis of how much risk he is willing to assume; and in addition is able to allocate funds based on particular opportunities in a given area.

One might therefore view the investment concept of Schloss Bros. as a portfolio of money managers, rather than a portfolio of individual securities.

In searching for qualified investment managers, Thomas Schloss and Dwight Lee look for experience and ability, a record of success, a personal investment by the manager, and, above all, the highest level of integrity. Selecting a money manager or group is, of course, a "people judgement". However, experience has taught them to look for the following combination of factors:

- 1) A limited partnership where the investors, including Schloss Bros., are limited partners and the money managers are the general partners.
- 2) Have a minimum of two general partners, each capable of individually managing the portfolio.
- 3) General partners should be managing between \$5,000,000 and \$25,000.00.
- 4) General partners should spend their full time managing investments rather than soliciting people to raise additional funds.
- 5) The objective of the individual partnerships must be clearly understood.....achievement of substantially above average gains in a bull market and maintenance of capital in a bear market.

- 6) Investment managers are generally required to invest substantially all of their personal funds in the private partnership, or to follow the example of the partnership and buy the same securities, after the partnership has invested; and sell them after the partnership has sold.
- 7) General partners are usually paid 20% of the profits. If they do not make money, they lose their own capital and are not compensated for their efforts.
- 8) Each individual private partnership should attempt to concentrate its investments in twenty or fewer securities, thereby allowing the general partners to be thoroughly familiar with each security through the use of fundamental research.

Obviously, some of these apply more to one area of investment rather than another, but none the less, they offer an idea of the kinds of factors we look for.

#### Future Plans

Schloss Bros. and Shoreline Group believe part of their success results in their continuing search for innovative and profitable investments. This diversification spreads risk and at the same time allows the investor a higher average return.

The Shoreline Group plans to continue making investments in these areas as long as the returns meet our expectations. But in looking for other areas, we are convinced our next move should be offshore in an effort to expand our investment alternatives and to take advantage of the favorable tax advantages created by a non-controlled foreign corporation. This for the first time would allow us to make and liquidate investments for purely economic as opposed to tax reasons.

Sincerely,

Dwight E. Lee,  
General Partner

Thomas H. Schloss,  
General Partner

WILLIAM L. SCHLOSS

Chairman of the Board (Emeritus) of Indianapolis Morris Plan and Economy Finance Corporation, Mr. Schloss is senior partner in Schloss Bros.. He is one of the founders, and a former president of American Industrial Bankers Association.

A resident of Indianapolis since 1913, he became a partner in Schloss Bros. in 1933. The company at that time was engaged in residential real estate development (including subdividing, building, financing, and selling single family homes), the investment business (for its own account and others), insurance, personal lending and savings.

In 1936 he acquired Indianapolis Morris Plan and merged Schloss Bros. savings and loan business into it. Under his direction Morris Plan became one of the largest personal loan and savings institutions in the United States with assets of over \$95MM. In 1947 he founded and became Chairman of the Board of Economy Finance Corporation, and a number of years later merged Indianapolis Morris Plan into Economy as a wholly owned subsidiary. In 1955 he organized the Public Life Insurance Company of America and subsequently three other life insurance companies.

Active in various civic organizations, including the Boy Scouts of America, he has been a member of the Central Indiana Council Executive Board since 1936. He served as its president in 1952; has been a member of the Region 7 Executive Committee since 1958; and has served as a member of the National Executive Board since 1963.

Formerly president and now a director of the Indianapolis Jewish Welfare Federation, he is also a former president of the Indianapolis Hebrew Congregation, a former co-chairman of the Community Chest Campaign, a member of the Executive Committee of the United Fund of Greater Indianapolis, President of Flanner House Homes ( a non-profit, home building program) and chairman of the Finance Committee for the Board for Fundamental Education.

---

THOMAS H. SCHLOSS

Thomas H. Schloss obtained his B.S. degree in Management and Accounting from Indiana University in 1965 and his M.B.A. in Finance from American University in 1967.

As part of a planned training program after graduation, he was associated with:

Walston & Co., completing their brokerage training program  
Bank of New York, primarily in their credit department  
A. G. Becker & Co., in their corporate finance department  
Securities Supervisors, in their investment advisors division  
Continental Illinois National Bank, in a commercial lending section

He then spent six months in New York City interviewing money managers with banks, brokerage firms, investment advisors, mutual funds and private partnerships. Based on that experience, he conceived the idea of creating a business of evaluating money of private partnerships. He has interviewed over 200 money managers during the last five years.

He was a director of Sullivan State Bank from 1969 to 1971.

He joined Economy Finance Corporation in 1969 as assistant to the president, served on its Executive Committee and in various management areas. He resigned in 1971 to devote his full time to the management of Schloss Bros.' funds which he had been managing on a part time basis since 1967. At that time he and Dwight Lee organized Shoreline Group, a private investment management firm in New York City.

He is currently a member of the advisory board of Brentwood Associates, a Los Angeles based venture capital private partnership.

---

DWIGHT E. LEE

In 1967 Dwight E. Lee joined Thomas Schloss in interviewing managers of private partnerships for possible investment of family funds. In 1969 after six months active duty in the United States Army Reserve, he graduated from Columbia University with a B. A. in Economics.

He continued interviewing private partnerships until September 1969 when he joined Goodnow, Gray & Co., one such private partnership. They invited him to join their staff as an analyst after he conducted a standard interview with them in considering their partnership as an investment for Schloss Bros..

At Goodnow, Gray he did all types of investment research. During his last six months there, he ran a small part of their portfolio on a discretionary basis.

In October 1970 he returned to Columbia to work on his M.B.A. degree, which he received in 1972. While in school he continued his investment research, particularly in the area of convertible securities and hedging, the outgrowth of which is Triforium Partners.

Dwight Lee's experience in interviewing managers of private partnerships, as well as in working for one such partnership has been of aid in developing Schloss Bros.' investment philosophy.

He is currently a director of the Foothill Group, a public Los Angeles based venture capital, leasing, and management consulting firm.

---

ROBERT E. SCHLOSS

Robert E. Schloss obtained his Bachelor of Science degree in Economics from the Wharton School of Finance and Commerce at the University of Pennsylvania in 1964 and did graduate work at the University of Pennsylvania and Indiana University in Economics.

He was an instructor at Purdue University Indianapolis campus for two years teaching economics and accounting. He has passed the qualifying examinations to become a Certified Public Accountant.

He joined Economy Finance Corporation in 1968, managed offices in different credit divisions, assumed various management responsibilities and served on its Executive Committee. He resigned in 1971 to engage in cable television (CATV) business.

He is President and Chief Executive Officer of Cardinal Telecable Corporation in Paris, Illinois; See-More TV Corporation in Westville, Illinois; and Rolla Telecable Corporation in Rolla, Missouri; Cablevision of Lincoln County in Ruidoso, New Mexico; Cable Brazil in Brazil, Indiana and Omega Communications, Inc. in Indianapolis.

Presently, he is a Director of the Sullivan State Bank in Sullivan, Indiana.

In addition, he is active in community affairs in Indianapolis having been the past treasurer of the Mapleton Fall Creek Neighborhood Association and serves on the Board of Directors of the Jewish Community Center and the Jewish Community Relations Council.

Re: Transmittal of Billings for June, July, August, 1979

Dear Tom,

Enclosed are the billings for June 20, 1979, July 20, 1979, and August 31, 1979. You will notice that the August billing is quite different in format and appearance -- it's our first billing off our new computer! We have bound these three billings together for your convenience.

Also, we have enclosed a copy of our May billing. Apparently, the originals of this billing were hand delivered to you on your trip to Tucson in June, but we have no record of this and are sending this copy 'just in case.'

Talk to you soon,

Re: Transmittal of Billing for September, 1979  
and Correspondence from J.R. Shelburne, President  
Natural Resources

Dear Tom,

Enclosed is the billing for September, 1979 which covers  
the Tombstone Project expenditures (time and expenses) for  
the period from September 1 through September 28, 1979.

Also enclosed is a piece of correspondence from Mr. J.R. Shelburne,  
President of Natural Resources regarding the data which Jim sent  
to him on the Tombstone properties.

Sincerely,

  
Christine M. Dodson

Re: Southwestern Exploration Associates, Inc. Capabilities in  
Remote Sensing Reproduction, Geologic Interpretation, and  
Regional Exploration Services.

Dear Ed,

As a supplement to the package of materials sent to you Via  
Overnight Delivery on Monday, April 21, I thought you would like  
to review the following specific exploration areas which we at  
Southwestern Exploration Associates, Inc. feel could complement  
your program. I have also summarized some additional background  
information you may find useful.

Arizona Project

A four year program to locate new energy sources including  
uranium, oil and gas, coal, base and precious metals and  
industrial and chemical materials. It is expected that the  
mineral resources discovered should exceed \$2 billion in  
gross value.

Cost \$4,000,000.

Northern Nevada

A four year joint venture program to discover precious  
metals, copper, molybdenum and uranium deposits with gross  
metal values exceeding \$1 billion. Cost would include land  
acquisition. Geological data valued in the range of \$500  
thousand already available through Southwestern Exploration  
Associates, Inc.

Cost \$2,500,000.

South America

Join with Southwestern Exploration Associates, Inc. in new  
exploration in Colombia, Chile or Argentina, where  
Southwestern Exploration Associates, Inc. have professional  
expertise and associates with excellent contacts to high  
level people.

Cost \$300,000, seed money for one year program in one of  
these countries.

Mr. Ed Phariss  
April 23, 1980

2

Peoples Republic of China

Joint venture to export calcined bauxite to the United States, and undertake exploration for gold, silver, molybdenum, copper and oil, for future export. In exchange for technological assistance for bauxite, we would seek a contract for 300 to 500 thousand tons of bauxite which would provide positive cash flow on a short term. Propose to barter bauxite for \$10 to \$25 million, cost for rotary kilns to modernize Chinese bauxite program.

Briscoe and Southwestern Exploration Associates, Inc. Accomplishments:

- 1965 - Substantial addition to the Silver Bell Arizona porphyry copper ore reserves.
- 1968 - Identified major extension to known silver - gold mineralization, California Mining District. Exploration currently underway, ASARCO, Anaconda and others.
- 1969 - Identified major new extension of Waterloo type silver mineralization in the Calico Mining District, near Barstow, California. Geologically indicated reserves plus \$2 billion gross metal value. Currently under exploration by AMAX.
- 1971 - Major contribution to the discovery of the McDermitt mercury deposit which is now being mined by Placer Development (AMEX), in northern Nevada.
- 1973 - Identified a porphyry copper center in the Tombstone Mining District of Arizona, and a hidden bonanza silver replacement zone equivalent to the main Tombstone District. Porphyry copper drilled initially by ASARCO - very deep - high property payments and break in copper market forced abandonment. Silver zone - geologically indicated reserves \$1 billion gross metal value. Currently being drilled by Occidental Minerals.
- 1974 - Identified porphyry molybdenum deposit currently being drilled in Southern Nevada.
- 1975 - Identified what appears to be the other half of the ASARCO Hardshell silver orebody. Geologically indicated reserves of \$2 billion. Client currently looking for a joint venture partner.

Mr. Ed Phariss  
April 23, 1980

3

- 1976 - Identified a previously unprospected porphyry moly - copper zone, central Nevada. Client currently looking for a joint venture partner.
- 1977 - Identified a gold - bearing porphyry copper center in an old precious metal district, southern Nevada. A bonanza grade gold - bearing breccia pipe, peripheral to the porphyry copper center was also identified. Exploration is currently ongoing.
- 1978 - Identified 3 Carlin - Waterloo-type gold/silver deposits, geologically indicated reserves plus \$2 billion gross metal value. Currently undergoing exploration.
- 1979 - Identified a uranium and porphyry molybdenum system in New Mexico with geologically indicated reserves of \$2 billion gross metal value.
- 1979 - Identified gold, silver, and uranium deposit in northern Nevada with geologically indicated reserves of \$2 billion gross value.
- 1980 - Identified 2 Waterloo - like precious metal zones in central Nevada. Disseminated mineralization indicated, exploration work ongoing.

Dear Jim:

This letter is a binding commitment by Tombstone Silver Mines, Inc. regarding your retainer fee.

Tombstone Silver Mines, Inc. agrees to retain you for consulting services for a period of five years commencing October 1, 1985.

Tombstone Silver Mines, Inc. (hereinafter referred to as "the Company") agrees to pay up to \$2,400 per month under the following terms and conditions:

1. If the Company is in production and gross bullion sales are between \$10,000 and \$40,000 per month, \$700 per month for overview consulting of at least two days, including travel, food, lodging and secretarial services, computing, drafting, etc. If bullion sales are above \$40,000 per month, then the consulting fee shall be for a minimum of 4 days per month including travel, food, lodging, secretarial, computing and drafting services, etc. The consulting services referred to above are for services provided in Tombstone relating to the present existing properties owned or controlled by the Company. If bullion sales are between \$40,000 and \$80,000 per month, the consulting fee will be \$1,400 per month plus \$35 for each thousand dollars above bullion sales above \$40,000 up to \$80,000 of total bullion sales. For example, if bullion sales were \$50,000 in any one month, the retainer fee would be \$1,400 plus \$350 for the additional \$10,000 of bullion sales. Bullion sales referred to above are from the present existing properties only. *FFB*
2. If this letter contract meets with your approval, please sign one of the two enclosed originals and return same in the enclosed envelope. *for 4 days per month. FFB*

Re: Tombstone Silver Mines, Inc.

Dear Jim:

I am sending this letter to inform you that as of May 2, 1986, I am no longer a director, officer or attorney for Tombstone Silver Mines, Inc.

As I am sure you are well aware, TSMI is not presently in a position to meet its current obligations. Charlie was expecting a final payment check on the paving job in the amount of \$30,000 to \$50,000. This check has not been sent.

If I may be of assistance, please give me a call.

Most sincerely,

EDMUND T. ALLEN, III

Re: Tombstone Silver Mines, Inc.  
Chapter 11, 87-0517 PHX GBN

Dear Sir:

I am writing in my capacity as counsel for the Debtor-in-Possession, Bill Grace, in the above referenced bankruptcy.

I understand that your firm prepared a geological report for the Debtor regarding its property in the area of Tombstone, Arizona. The Debtor-in-Possession is currently engaged in finding another mining firm to take over Tombstone. Any such firm wants to review your report and its supporting documents and materials.

Therefore, please call me so that we can discuss how I may make suitable arrangements to obtain these materials or to have a third party review them.

Very truly yours,

Donald O'Neil Heck

Re: Tombstone Silver Mines Chapter 11

Dear Tom:

Your clients, the Escapules, are either directly or indirectly the largest shareholders of Tombstone Silver Mines. Therefore, they have the most at stake in its attempt to reorganize under Chapter 11.

Tombstone's Debtor-in-Possession, Bill Grace, has made a deal with Crossland Silver And Gold of Denver to acquire to Tombstone. Under this deal your clients would receive shares of Crossland in return for their shares of Tombstone. I have enclosed copies of the draft Crossland agreement, proposed plan and disclosure statements for your information.

In order for the Crossland deal to go down Tombstone must provide to Crossland all of its drilling logs, drillings maps, assay reports and other geological records. Most of these items of corporate property are in the possession of your clients. I need to make appropriate arrangements with you to obtain them from your clients.

In our last conversation regarding information on your clients' computer you indicated that your clients wanted \$200.00 to cover the costs of printing out that information. Frankly, Tombstone doesn't have those funds and there doesn't seem to be any possibility of it paying any sums to your clients.

I would remind you that the documents that are needed are corporate property and that your clients are directors of the corporation. I would suggest that their failure to cooperate in this matter could be perceived as a breach of their fiduciary duty to the corporation.

The only alternative to the Crossland deal appears to be the liquidation of Tombstone's assets. The Debtor-in-Possession has not found any other entity with any interest in Tombstone's claims and mineral rights. He has concluded that if the Crossland deal can not be consummated that it is probably in the best interest of the creditors to sell all of Tombstone's assets, including the mineral rights obtained from your clients, at public auction.

The best estimate of the Debtor-in-Possession is that the liquidation of Tombstone would generate enough funds to pay the tax liabilities, administrative costs and part but not all of the secured claims. In that situation your clients would receive nothing for their shareholdings.

If your clients have any input on this matter or if they have an interest in buying the minerals rights back from Tombstone, please let me know.

There are a number of other matters that we need to address. The Debtor-in-Possession believes that your clients have not only been uncooperative but have also attempted to obstruct his efforts. He has advised me that he wants to dispute the claims of your clients, their corporation and their relatives for sums due for services rendered to Tombstone. He has also asked me to look into pursuing Tombstone's claim against Arizona Engineered Aggregates, a corporation controlled by your clients' relatives, and has told me that payment by Arizona Engineered Aggregates was guaranteed by one of your clients.

A final reason for your clients to be motivated to see the reorganization of Tombstone succeed is that the IRS has asserted the 100 % penalty against various directors and officers of Tombstone. I have been advised that your clients were the responsible parties and that the other directors have asserted that position with the IRS.

I would suggest that after you have had an opportunity to review these matters with your clients that we meet to discuss their resolution.

Very truly yours,

  
Donald O'Neil Heck

## AGREEMENT

An Agreement entered into this \_\_\_\_\_ day of \_\_\_\_\_, 1988, by and between CROSSLAND SILVER AND GOLD, INC., (Crossland), a Colorado corporation, and TOMBSTONE SILVER MINES, INC., (Tombstone), an Arizona corporation.

### RECITALS

WHEREAS, Tombstone is the owner of certain mineral rights, mining claims and leases, as set forth in the attached Schedule "A", and certain mining equipment and other assets, as set forth in the attached Schedule "B";

WHEREAS, Tombstone is currently under the protection of Chapter 11 of the Bankruptcy Act in a case pending in the United States Bankruptcy Court for the District of Arizona, case number B87-0517 PHX GBN; and

WHEREAS, Crossland desires to to acquire all of the outstanding shares of Tombstone and to operate Tombstone as a wholly owned subsidiary.

### COVENANTS

Therefore, in consideration of the mutual promises and covenants contained in this Agreement, it is agreed that:

1. Tombstone shall submit a Plan of Reorganization to the Bankruptcy Court proposing:

a. The claims of the "priority" creditors set forth on the attached Schedule C shall be paid in full.

b. The secured creditors set forth on the attached Schedule D shall receive one (1) share of \$1.00 par value Crossland common for each dollar of their claim.

c. The unsecured creditors set forth on the attached Schedule E which are either undisputed or disputed and approved by the Bankruptcy Court shall receive:

(1) a sum of cash, rounded to the nearest whole dollar, equal to twelve and one half percent (12 1/2%) of the amount of the undisputed or allowed amount of the claim; and,

(2) .375 share of \$1.00 par value Crossland common stock for each \$1.00 of the undisputed or allowed amount of the claim. The actual number of shares to be issued to any such creditor shall be rounded up to the next higher whole number of shares in order to avoid the issuance of fractional shares.

*on the attached schedule F*

D. Each Tombstone shareholder shall receive One (1) share of \$1.00 par value Crossland common stock for each fifty (50) shares of outstanding Tombstone common stock held and all outstanding shares of Tombstone common being cancelled and a certificate for that number of Tombstone shares to be issued to Crossland.

E. The payment of all administrative costs and expenses of the bankruptcy.

2. Upon the approval of the Plan of Reorganization set forth in Section 1 without substantial change, Crossland shall within a reasonable period of time but not more than \_\_\_\_\_ days from the approval of the Plan or in the event of a subsequent discovery or allowance of a claim do the following:

A. Pay to Tombstone such sums as may be necessary to fund the cash payments required under Sections 1A and 1C(1). The estimated amount of cash necessary to fund these requirements is \$50,500.00.

B. Issue such number of shares of its \$1.00 common as may be required to comply with Sections 1B, 1C(2) and 1D.

C. Pay the additional sum of \$2,500.00 to Tombstone to be used to satisfy the administrative costs and expenses of its Bankruptcy.

3. Crossland's obligations to perform under the terms of this Agreement are expressly conditioned upon the following:

a. The approval by the Bankruptcy Court of the Plan of Reorganization for Tombstone substantially as set forth in Section 1.

b. The inspection and approval of Tombstone's title to the mineral rights, mining claims and leases set forth in Schedule A. In the event Crossland disapproves said title, it shall give notice of the defect within \_\_\_\_\_ days of the date of execution of this Agreement and Tombstone shall have an additional \_\_\_\_\_ days to correct that defect. In the event Crossland fails to notify Tombstone of a defect within said \_\_\_\_\_ day review period, it shall be deemed to have waived any defect.

c. The inspection and approval by Crossland of Tombstone's right to enter and remove minerals on any claim set forth on Schedule A for which Tombstone holds only the mineral rights, but not the surface rights. In the event any such right of entry fails to meet with Crossland's approval, it shall give notice of the defect in such right to Tombstone within \_\_\_\_\_ days of the date of execution of this Agreement and Tombstone shall have an additional \_\_\_\_\_ days to correct the defect. In the event Crossland fails to notify Tombstone of a defect with said \_\_\_\_\_ day review period, it shall be deemed to have waived any such defect.

4. Tombstone shall file a Disclosure Statement and Plan of Reorganization within \_\_\_\_\_ days of the date of execution of this Agreement. Copies of Tombstone's Disclosure Statement and Plan of Reorganization are attached as Schedules \_\_\_\_\_ and \_\_\_\_\_.

5. Crossland shall cooperate fully with Tombstone in the preparation of any necessary documents including but not limited to Disclosure Statements and Plans of Reorganization, necessary to implement this Agreement, including but not limited to disclosure of financial and business information about Crossland, its parents, affiliates, officers, directors, and principals or any such information required by the Bankruptcy Court.

6. Crossland shall pay all of its costs and fees arising out of this Agreement other than costs and fees arising from litigation to enforce this Agreement as covered under Section 15.

7. Crossland acknowledges that it has physically inspected all assets of Tombstone, accepts all such assets in their "as is" condition and waives any future claims it or its successors may have regarding the condition of said assets.

8. C.O.P.S. acknowledges that it has inspected the geological reports listed in Schedule "B" and Tombstone makes no representations or warranties, either express or implied, regarding the geology of its claims and leases, including but not limited to the nature, type and extent of any mineral deposits on said claims and leases.

9. In the event of any breach of this Agreement by Crossland, Tombstone shall retain all sums paid by Crossland as liquidated damages. It is agreed it would be extremely difficult to determine Tombstone's actual damages in the event of a breach of this Agreement by Crossland.

10. Tombstone represents that the list of shareholders, secured creditors and unsecured creditors attached to this Agreement as Schedules C, D and E are accurate according to the best information available to Tombstone at the time of execution of this Agreement and no shareholder or creditor of Tombstone has been knowingly omitted. Crossland and Tombstone acknowledge that additional shareholders and/or creditors may be discovered after the execution of this Agreement and/or the amount of any claim or shares held may change for various reasons, including but not limited to the allowance in full or in part of a disputed claim. Crossland agrees that it will pay up to an additional fifteen percent (15%) of the total the estimated cash amounts set forth in Section 2 A and C and issue up to an additional fifteen percent (15%) of the shares required to be issued under Sections 1 and 2, as necessary to settle newly discovered or allowed claims and/or additional administrative expenses.

11. Crossland has reviewed and approves the proposed Disclosure Statement and Plan of Reorganization to be submitted by Tombstone to the Bankruptcy Court attached as Schedules X and X

G H

which are incorporated by reference in this Agreement. Crossland further agrees, subject to the contingencies of Section 3, to take all actions necessary to accomplish said Plan of Reorganization.

12. This Agreement shall be interpreted under the laws of the State of Arizona.

13. This Agreement shall be binding upon the heirs, successors and assigns of each party.

14. The terms of this Agreement are severable and in the event any provision is found to be unenforceable, its unenforceability shall not effect the validity of any other provision.

15. In the event any party to this Agreement institutes litigation to enforce this Agreement, the party prevailing in that litigation shall be entitled to recover its costs and attorney's fees.

16. This Agreement together with all attached Schedules constitutes the entire agreement between the parties and there are no representations, warranties, agreements, understandings, or conditions, either express or implied, except as set forth in this Agreement.

17. This Agreement may not be amended except by a written document executed by all parties.

18. This Agreement may be executed in multiple counterparts, each of which shall be considered to be one and the same Agreement, and shall be binding Agreement when one or more counterparts have been signed by each party and delivered to the other.

19. This Agreement may not be signed by Crossland without the prior written consent of Tombstone.

20. The entry into and execution of this Agreement, the transactions contemplated in it and the performance of the obligations imposed upon Crossland by it have been properly and duly authorized and approved by Crossland's officers, directors and shareholders. Neither this Agreement nor the transactions contemplated in it contravene or breach Crossland's Articles, ByLaws, other agreements, instruments granting security interests or creating liens including but not limited to mortgages and Deeds of Trust and/or any law, statute or governmental regulation applicable to Crossland. Crossland shall provide such further assurance of these matters as required by Tombstone and/or the Bankruptcy Court.

IN WITNESS WHEREOF the parties have executed this Agreement on the date following their signature.

IN THE UNITED STATES BANKRUPTCY COURT  
FOR THE DISTRICT OF ARIZONA

In Re: ) NO. 87-0517-PHX-GBN  
)  
TOMBSTONE SILVER MINES, ) CHAPTER 11  
INC., )  
) PLAN OF REORGANIZATION  
Debtor. )  
)  
)  
)  
)

The Debtor, by and through its undersigned attorney,  
proposes the following Plan of Reorganization:

I. Classification of Creditors.

The creditors are divided into the following classes:

- Class 1: Expenses and Costs of Administration
- Class 2: Taxing Authorities
- Class 3: Secured Creditor - Thunderbird Bank
- Class 4: Secured Creditors other than Thunderbird Bank
- Class 5: Unsecured Creditors with Undisputed or Allowed

Claims

- Class 6: Other Unsecured Creditors
- Class 7: Shareholders

II. Proposed Acquisition of Debtor.

Plan of Reorganization consists of the Debtor being  
acquired by Crossland Silver and Gold, Inc., a Colorado

1 corporation, of Denver, Colorado. Crossland shall make a cash  
2 infusion of approximately \$53,000.00 in the Debtor to be used to  
3 pay some creditors and costs of administration and shall issue  
4 approximately 156,000 shares of its \$1.00 par value common stock  
5 of Crossland to the creditors and shareholders as set forth in  
6 this Plan. Crossland intends to infuse further additional  
7 capital into the Debtor and to resume mining operations on the  
8 Debtor's claims. The operations will include the opening of an  
9 underground mine to reach higher grade ore than is currently  
10 available in the current open pit mine.

11 III. Provisions for the Treatment of Claims of Creditors.

12 Class 1: Expenses and Costs of Administration.

13 These fees and costs shall be paid in full from the  
14 cash on hand and cash to be received by the Debtor from  
15 Crossland.

16 Class 2: Taxing Authorities.

17 These claims will be paid in full from the cash to be  
18 received by the Debtor from Crossland. These claims are  
19 estimated to be:

20	a.	Internal Revenue Service	\$26,655.00
21	b.	Arizona	
22		(1) Department of Economic Security	\$ 1,853.00
23		(2) Department of Revenue	\$ 1,087.00
24		(3) Motor Vehicle Division	\$ 81.00
25			
26	c.	Cochise County	\$ 6,983.00

27 Class 3: Secured Creditor-Thunderbird Bank.

28 This creditor has been satisfied in full pursuant to a

1 Joint Motion and Stipulation to Lift Stay whereby the property  
2 securing this claim, a crusher, was transferred to Delbert and  
3 Karen Pierson for \$57,000.00 with the proceeds to be  
4 received by Thunderbird Bank which shall in turn remit  
5 approximately 10% or up to \$4,470.00 to the Debtor.

6 Class 4: Other Secured Creditors.

7 These creditors shall receive one share of the \$1.00  
8 par value common stock of Crossland for each dollar of their  
9 claim. These creditors and the amount of their claims are:

10	a. W. W. Grace	\$ 7,000.00
11	b. David A. Thomas	\$15,000.00
12	c. Hal Rouse	\$ 8,000.00
13	d. Phillip Rouse	\$ 8,000.00
14	e. Charles Sanders	\$40,000.00

15 Class 5: Unsecured Creditors With Undisputed or Allowed  
16 Claims.

17 These creditors shall receive a cash amount equal to  
18 12.5 cents for each dollar of their claim and .375 share of  
19 \$1.00 par value of Crossland common for each dollar of their  
20 claim. The cash will be supplied by Crossland. All dollar and  
21 share amounts shall be rounded to next highest whole dollar and  
22 share.

23 Class 6: Other Unsecured Creditors.

24 This claims shall received nothing.

25 Class 7: Shareholders.

26 The shareholders shall receive one (1) share of the  
27 \$1.00 par value of Crossland common stock for each fifty (50)

28 ///

1 shares of the Debtor's stock that they hold. All outstanding  
2 shares of the Debtor will be cancelled and a certificate for  
3 that number of shares issued to Crossland.

4 IV. Other Creditors and Bar Date.

5 The Plan recongizes there may be creditors who have  
6 not filed a Proof of Claim. It makes no provision for any  
7 creditor who fails to file a Proof of Claim. The Plan requests  
8 the Court set a Bar Date. Any Proof of Claim filed prior to  
9 this date will be classified into one of the existing classes  
10 and treated the same as any other member of that class.

11 V. Execution and Implementation of the Plan.

12 The Plan is based upon completion of the acquisition  
13 by Crossland of the Debtor. The obligation of Crossland Inc. to  
14 proceed with that transaction is contingent upon the approval of  
15 the Plan. Crossland, upon approval of the plan will pay the  
16 funds necessary to fund the Plan within a reasonable time, not  
17 to exceed \_\_\_\_\_ days following the approval of the Plan or in  
18 the case of a claim disputed by the Debtor within \_\_\_\_\_ days  
19 of the Court's approval of that claim, and it shall issue the  
20 requisite number of its shares to the creditors and/or  
21 shareholders of the Debtor within the same time period.

22 VI. Contested Claims.

23 Contested claims by the Debtor shall be paid only  
24 upon their allowance by the Court, and in such allowed amount  
25 according to the Class in which they belong.

26 VII. Modification of the Plan.

27 The Debtor may propose amendments or modifications of  
28 this Plan at any time prior to confirmation by compliance with

1 11 U.S.C. Section 1127. After confirmation the Debtor may,  
2 with approval of the Court, with notice and a hearing if the  
3 Court so orders, and so long as they do not materially or  
4 adversely effect the interests of the creditors, remedy any  
5 defect or omission or reconcile any inconsistencies of the Plan  
6 or in the order of confirmation in such manner as may be  
7 necessary to carry out the purposes and effect of the Plan.

8 VIII. Jurisdiction of the Court.

9 The Court will retain jurisdiction, until the Plan has  
10 been fully consummated, concerning, but not limited to, the  
11 following:

12 1. The classification of the claim of any  
13 creditor and the re-examination of the claims which have been  
14 allowed for purposes of voting and the determination of such  
15 objections as may be filed to creditors' claim. The failure by  
16 the Debtor to object to or examine any claim for purposes of  
17 voting shall not be deemed to be a waiver of the Debtor's right  
18 to object to or re-examine the claim in whole or in part.

19 2. The determination of all questions and  
20 disputes regarding title to the assets of the estate and  
21 determination of all causes of action, controversies, disputes  
22 or conflicts whether or not subject to any action pending as of  
23 the date of confirmation between the Debtor and any other party  
24 including but not limited to any right of the Debtor to recover  
25 assets pursuant to the provisions of Title 11 of the United  
26 States Code.

27 3. The modification of this Plan after  
28 confirmation pursuant to the Bankruptcy Rules and Title 11 of

1 the United States Code.

2 4. The enforcement and interpretation of the  
3 terms and conditions of this Plan.

4 5. The entry of any order, including  
5 injunctions, necessary to enforce the title, rights and powers  
6 of the Debtor and to impose such limitations, restrictions,  
7 terms and conditions of such title, rights and powers.

8 IX. Post Confirmation Activities.

9 After confirmation of the Plan, the Debtor will  
10 implement the Plan by commencing and completing the Crossland  
11 acquisition of the Debtor.

12 RESPECTFULLY SUBMITTED this \_\_\_\_ day of May, 1988.

**DRAFT**

IN THE UNITED STATES BANKRUPTCY COURT  
FOR THE DISTRICT OF ARIZONA

In Re: )  
TOMBSTONE SILVER MINES, )  
INC., )  
Debtor. )  
PROCEEDING UNDER CHAPTER 11  
NO. 87-0517-PHX-GBN  
DISCLOSURE STATEMENT

THE DEBTOR PROVIDES THIS DISCLOSURE STATEMENT TO CREDITORS OF THE DEBTOR AND OTHER INTERESTED PARTIES. THE PURPOSE OF THIS DISCLOSURE STATEMENT IS TO GIVE INFORMATION WHICH THE DEBTOR BELIEVES TO BE MATERIAL, IMPORTANT AND ADEQUATE FOR MAKING AN INFORMED DECISION IN VOTING ON THE REORGANIZATION PLAN PROPOSED BY THE DEBTOR AND ON FILE WITH THIS COURT. A CLASS OF CREDITORS HAS ACCEPTED THE PLAN, IF AMONG THOSE CREDITORS, WITHIN SUCH CLASS, WHO VOTE ON THE PLAN, AT LEAST TWO-THIRDS IN AMOUNT AND MORE THAN ONE-HALF IN NUMBER OF THE ALLOWED CLAIMS IN SUCH CLASS VOTE FAVORABLY FOR THE PLAN.

NO REPRESENTATIONS CONCERNING THE DEBTOR ARE AUTHORIZED BY IT OTHER THAN AS SET FORTH IN THIS STATEMENT. ANY REPRESENTATION OR INDUCEMENT MADE TO SECURE ACCEPTANCE WHICH IS OTHER THAN AS CONTAINED IN THIS STATEMENT SHOULD NOT BE RELIED UPON IN ARRIVING AT A DECISION, AND SUCH REPRESENTATION AND INDUCEMENTS SHOULD BE REPORTED TO COUNSEL FOR THE DEBTORS, WHO,

IN TURN, SHALL DELIVER SUCH INFORMATION TO THE BANKRUPTCY COURT FOR SUCH ACTION AS MAY BE DEEMED APPROPRIATE.

I. History of Debtor.

The Debtor was incorporated in Arizona in March, 1984, for the purpose of acquiring mineral leases, rights and claims in the vicinity of Tombstone, Arizona and operating a sliver mine on said leases, claims and rights.

The Debtor issued shares of its common stock to various individuals and corporations for cash, property and services. A list of the current shareholders of the Debtor is attached as Schedule A.

The Debtor commenced mining operations in the fall of 1984 and continued mining operations through May, 1986. It ceased mining operations due to a decline in the price of silver. During this period the Debtor purchased various tools and equipment, including an ore crusher with a loan from Thunderbird Bank. The loan was secured by a lien upon the crusher. Also during this period the Debtor required additional working capital and obtained \$78,000.00 from various officers, directors and shareholders. These funds were treated as a loan and were to be secured by a lien on equipment of the Debtor with a value of \$100,000.00. A lien was recorded with Cochise County Recorder in favor of these creditors. A list of the individuals who loaned these funds to the Debtor is attached as Schedule B.

During 1986 the Debtor incurred but failed to pay withholding taxes.

In the Fall of 1986 the Debtor entered into an agreement with Arizona Engineered Aggregates, an Arizona

corporation, controlled by the family of one of the directors of the Debtor, Charles Escapule, to sell to it riprap (waste rock resulting from the Debtor's mining operations suitable for various construction uses). Arizona Engineered Aggregates failed to pay the Debtor for all riprap purchased by it from the Debtor.

The failure of the Debtor to ever operate at a profit due to the low market price for silver, the accumulation of various unpaid liabilities including unpaid withholding taxes, the failure to recover full payment from Arizona Engineered Aggregates, and the threat of immediate collection action by the Internal Revenue Service lead to the filing by the Debtor for the protection of the Bankruptcy Court.

## II. Bankruptcy History.

The Debtor filed its Petition for protection under Chapter 11 of the Bankruptcy Act on January 27, 1987.

Interim Monthly Financial Reports have been filed. Attached is a copy of the most recent monthly report.

Donald O'Neil Heck, P.C. was retained by the directors to file the Petition and to handle certain other matters. George Hill subsequently became counsel for the Debtor and on January 28, 1988, the Court approved the substitution of Donald O'Neil Heck, P.C. for George Hill as counsel for the Debtor.

The Committee of Creditors has not met and no counsel has been appointed for it.

## III. Incidents Precipitating Chapter 11.

The filing of the Bankruptcy Petition was directly precipitated by the Internal Revenue Service threatening to

commence collection action to collect unpaid withholding and employment taxes.

IV. Assets and Liquidation Analysis.

The Debtor owns the mineral rights, claims and leases set forth in the attached Schedule C. The Debtor-in-Possession estimates that in a forced liquidation these claims, etc. would have a fair market value of approximately \$50,000.00.

The Debtor owns the tools and equipment set forth in the attached Schedule D. The Debtor-in-Possession estimates that in a forced liquidation this equipment would have a fair market value of \$50,000.00.

The Debtor owns certain rock riprap by-products of its mining operations. The Debtor-in-Possession estimates the amount of this riprap to 20,000 cubic yards and its value to be approximately 1.00 per cubic yards, if and when it could be sold.

The liquidation and sale of these assets would at best be difficult. At the current price level of silver, there is doubt as to whether or not the silver ore in the current open pit mine could be profitably mined. This therefore makes the sale of assets and mine as a going concern unlikely in the view of the Debtor-in-Possession. Therefore, in the opinion of the Debtor-in-Possession, any likely sale would be a forced liquidation at rock bottom prices.

V. Valuation of Scheduled Claims.

The Debtor has incurred administrative expenses for fees and expenses of its counsel and the Debtor-in-Possession. These are estimated to be approximately \$5,000.00 to \$10,000.00

upon the acceptance of the Plan of Reorganization.

The creditors set forth in the attached Schedule <sup>E</sup>~~X~~ are tax authorities and have priority. The amounts set forth in Schedule F are considered to be valid claims.

The creditors set forth in the attached Schedule <sup>B</sup>~~X~~ are secured creditors other than Thunderbird Bank. The amounts set forth on Schedule <sup>B</sup>~~X~~ are considered to be valid. An agreement has been reached with Thunderbird Bank for the automatic stay order to be lifted and for the sale of the crusher to Delbert and Karen Pierson in return for their promise to pay \$57,000.00 to Thunderbird Bank in full settlement of its claim.

Additionally, Thunderbird Bank shall remit approximately 10% percent of all sums received from the Piersons to the Debtor.

The claims set forth in the attached Schedule <sup>F</sup>~~X~~ are unsecured claims. All such claims are considered to be valid except for the following claims:

1.	State of Maine Mining Company	\$ 3,064.00
2.	C. B. Escapule	\$ 1,850.00
3.	Charlou Corporation	\$ 6,814.00
4.	James A. Brisco & Assoc.	\$19,665.47
5.	James Varga, CPA	\$ 1,622.73

It is estimated that the valid and provable claims total approximately \$40,000.00.

#### VI. Preparation and Accounting Information.

The Debtor has utilized the services of an accountant during this Chapter 11 proceeding to prepare income tax returns. The Interim Financial Reports have been prepared

by the Debtor-in-Possession.

VII. Litigation.

There is no pending litigation against the Debtor.

VIII. Business Expectations.

The Plan of Reorganization amounts to an acceptance by the Debtor of a proposal by Crossland Silver and Gold, of Denver, Colorado to: acquire the Debtor, make a cash infusion in the Debtor for the purpose of making a cash payment to some of the creditors and to pay some cash and issue shares of its stock to other creditors, and issue shares of its stock to shareholders of the Debtor.

Brief summaries of the backgrounds of Crossland's principals Charles H. King IV, Milton C. Heaney and Daniel H. Overmyer, are attached as Schedules <sup>6</sup>X, <sup>11</sup>X. and <sup>1</sup>X.

Crossland further proposes to infuse additional funds into the Debtor for the purpose of opening an existing mine shaft and to commence mining underground in order to produce a higher grade of ore, an ore with a sufficient silver content to allow silver to be produced profitably. An outline of Crossland proposed plan of operations is attached as Schedule <sup>J</sup>X.

The Debtor cannot resume mining operations unless and until it receives an infusion of working capital. The Debtor-in-Possession estimates that the minimum amount of additional working capital required to resume operations is \$200,000.00. There is no readily available source for these funds and the Debtor's ability to raise this cash in existing capital markets is unlikely, in the opinion of the Debtor-in-Possession, given the current price levels of silver and the fact the Debtor could

not operate the existing mine profitably. The opening of an underground shaft under the Crossland Plan would allow the possible mining of a higher grade of ore at a profit.

Further, the Debtor currently has no employees and no in place management personnel. The Debtor would have to obtain these individuals if it was to start operating and, in view of its financial condition, attracting competent professional management would be most difficult.

IX. Committee of Unsecured Creditors.

The Committee of Unsecured Creditors has neither met nor participated in the formulation of the Plan of Reorganization.

X. Summary of Plan of Reorganization.

The Plan divides the creditors into the following classes:

1. Expenses and Costs of Administration.
2. Claims of Various Taxing Authorities.
3. Secured Claim of Thunderbird Bank.
4. Secured Claims other than Thunderbird Bank.
5. Valid Claims of Unsecured Creditors.
6. Invalid and Disallowed Unsecured Claims.
7. Shareholders.

The first class consists of claims by Donald O'Neil Heck, P.C. and George Hill for legal fees incurred in the representation of the Debtor in this proceeding and fees and expenses incurred by the Debtor-in-Possession, W. W. Grace. These claims are expected to total between \$5,000.00 and \$10,000.00 and are to be paid in full.

The second class, the claims of the various taxing authorities are set forth in Schedule <sup>D</sup>X. They are estimated to total approximately 37,200 and are to be paid in full.

The third class, the secured claim of Thunderbird Bank, will be satisfied in full pursuant to the previously discussed an Court approved joint Motion and Stipulation between the Debtor and Thunderbird Bank.

The fourth class, secured claims other than Thunderbird Bank, are set forth in Schedule B. They total \$78,000.00 and creditors in this class shall receive one (1) share of the \$1.00 par common stock of Crossland for each dollar of their claim.

The fifth class, valid unsecured claims, are estimated to total approximately \$40,000.00 in valid claims. Creditors in this class shall receive a cash payment equal to 12.5 cents on the dollar for each dollar of an allowed claim and .375 shares of \$1.00 par value Crossland common stock for each dollar of an allowed claim. All dollar and share amounts will be rounded to the next highest whole dollar or share.

All disputed claims that are allowed by the Court shall fall into the sixth class. All disputed claims not allowed by the Court shall receive nothing.

All shareholders shall receive one (1) share of \$1.00 par value Crossland common stock for each fifty (50) shares or part thereof they hold of Tombstone common.

The Plan further proposes that the Court set a Bar Date and any Proofs of Claim filed before that date be

///

classified and treated accordingly.

RESPECTFULLY SUBMITTED this \_\_\_\_ day of May, 1988.

8. 6 TON LIME BIN/FEEDER
9. 2 TON CEMENT BIN/FEEDER
10. 14,000 GAL. WATER STORAGE TANK
11. 4 - 500 GAL. REAGENT MIX TANKS
12. 3,000 GAL MIX TANK
13. 5,000 GAL.
14. 8 YARD CEMENT MIXER
15. ATOMIC ABSORPTION UNIT
16. 300 TPD PRECIPITATION PLANT
17. ISO TPD PRECIPITATION PLANT
18. MISC. SAFETY EQUIPMENT
19. S HORSE POWER SUBMERSIBLE PUMP
20. CATERPILLAR 12 FOOT ROAD BLADE
21. 500 GALLON TANK & STAND
22. 12' x 18' PLANT BUILDING
23. 12' x 16' PLANT BUILDING
24. MISC. POWER LINES AND SWITCHING GEAR
25. 2 - MANIFOLDS FOR 300 TPD PLANT
26. 600 of 5" STEEL PIPE, PUMPT TANK
27. 300' of 3" PVC THINWALL
28. 500' of 2" PVC SCH 40
29. 20' x 20' smelter building
30. #200 DIESEL TILT FURNACE
31. 300 GALLON TANK
32. #200 SILICON GRAPHITE CRUCILBE
33. #16 BUTANE FIRED FURNACES
34. IMPACT MILL
35. 4' x 6' SHAKER TABLE/FEEDER

TAX CLAIMS AGAINST TOMBSTONE SILVERMINES, INC.

1.	Internal Revenue Service	\$27,000.00
2.	Arizona Department of Economic Security	2,042.00

Resume  
Charles H. KING IV

Introduction

35 Yr. old Born 11/15/51 Height 5'-11" Weight 225 lb  
Married with no dependant children

I have worked in about every capacity in mining. In placer I've prospected with gold pan and suction dredges, built Placer mills, and worked underground in Tertiary channels. In lode mines I've drilled in ground ranging from river gravel to Hornsfield. I've mined Gold, Silver, Lead, Zinc, Copper, and Tungsten. I've sunk shaft, driven decline, incline, drift, tunnel, and raises. In equipment I've used several types of jack leg drills, and both air and hydrolic jumbos. I've mucked with differant sizes of rocker shovels, and rubber tired muckers from Jarvis Clark 1 yards to Wagner ST8's. I've also driven many typos of ore trucks. I have an Alaska blasters licence and have used every method of blasting there is. I've also built gravity, flotation, and cyanide mills.

Mining History

Before forming OK Mining, I worked for Dynatec Mining contractors as a lead miner rehabilitating the Sheep Creek adit of the Alaska Juneau mine in Juneau Alaska. At the A.J. we rehabed 9,000 ft of track drift, shot in 7 core drill stations, started a new 9x9 track drift, and piped out 3,000 ft for channel sampling in old workings. Dynatec's address is 12687 W. Cedar Dr. suite 300 Lakewood Colorado 80228 Phone (303) 989-9415. Jim Harrower was the project enginer on the job. You can also verify my proformance there by contacting Rick Fredrickson, project manager, at (907) 506-4461.

Just prior to working for Dynatec I worked for Hyak Mining where I organized a low bugit attempt to reopen the Jualen mine, a small gold mine about 40 miles north of Juneau. Neil MacKinnon, Pres. of Hyak, can be contacted at (907) 506-3494. 5800 N. Douglas Hwy. Juneau Alaska 99801.

I worked at the Grant mine in Fairbanks Alaska for Tri-Con mining. I hired on there as a welder fabricating a cyanide leach mill. When the mill was nearly finished I went to work underground as a miner. My duties included driving subdrift, raises, stoping, much timbering, slushing, mucking and traming. Tri-Con's address is Box 12542 suite 2500, 1066 W. Hastings St. Vancouver B. C. Canada V6E3X2

Before coming to Alaska I worked for Patama Minerals, a gold mining co. based in Boulder Colorado, at the John Jay mine near Jamestown Colorado. The John Jay was a small vein mine producing teluride ore. My duties there included rehabing a two compartment shaft; runing bauld exploritory raises, timbered vent and escape raises, widening old drifts, installing rail, stoping and slushing. In addition to my underground duties I also rebilt and maintained the rock drills, and did most of the steel fabrication on the job. Contact Tim Hartley, Vice. Pres., at (303) 447-0819 address is P.O. Box 1013 Boulder Colorado 80302

I worked for DiCamillo Brothers Mining at the Drumlumon mine in Marysville Montana. At the Drumlumon we rehabed 1,200 ft of tunnel to access the production shaft. I had also worked for the DiCamillos on a previous project in Montizuma Colorado. It was a small vein silver mine called the Landslide. DiCamillo's phone (303) 651-1203 address is 312 Mountain View Longmont Colorado 80501.

I worked for Big Horn Mining, a mine development contractor then based in Longmont Colorado, at the Cross Mine which was owned by Hendricks Mining. At the Cross we used the shrink stope and block cave methods. Tom Hendricks can be contacted at (303) 443-1502

I was employed as an underground shifter at the Feather Forks mine, located near LaPort California. It is an underground tertiary channel placer mine. At this mine my duties varied widely. I drove an 8x8 decline, sunk shaft, rehabed and widened old decline and drifts, timbered, and acted as instructor for inexperienced hands. I also fabricated a placer mill on site. Jim Ore, the owner, can be contacted at (415) 932-5918

I worked for Teledyne Tungsten, a Fresno Calif. based subsidiary of Teledyne Corp., at the Strawberry mine. There I ran a slusher stope mining low grade tungsten ore. Office phone is (209) 233-0737

I worked for NORSIGO Processing and Refining Ltd. in Leadville Colorado. I hired on as a welder finishing the mill. When we completed the mill I was retained as a mill shift boss. After a short time I was promoted to mill Superintendent. I held that position until we had to shut the mill down for lack of ore. It was a 300 ton per day flotation mill geared to concentrate silver ore. When the mill shut down I went to work at the mine, the Centennial Chief. There I ran an 8x8 decline, incline, drifts, and a large slusher stope. Due to decreased silver prices NORSIGO sold off it's assets and got out of mining, but you can verify my performance by contacting Chuck Lackner at (303) 395-6110 address 29095 Cr 357 Buena Vista Colorado 81211. Chuck was mine Superintendent for NORSIGO.

I also worked for Centennial Development Corp. at the Molycorp mine near Questa N.M.. There we sunk an 18 ft vent shaft, and a 24 ft production shaft. My title was lead welder. My duties included fabricating and installing any steel devices used in and around both shafts, supervising welders, maintaining rock drills and muckers.

Besides working for other mining companies I designed and built several suction dredges that I used in California rivers.

I formed Blue Ribbon Mining and Development Inc. in 1984. As Pres. of Blue Ribbon I negotiated leases, researched properties, dealt with permitting, and evaluated mines in Colorado, Alaska, and Costa Rica.
