James Doyle Sell Mining Collection

### **ACCESS STATEMENT**

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

### **CONSTRAINTS STATEMENT**

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

### **QUALITY STATEMENT**

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

**Re: Walnut Grove Porphyry Copper Target, Yavapai County, Arizona**

Dear Jim:

I recently staked 18 lode claims over a buried target, generated by mineral trend projections. The target is located under shallow(?) Tertiary cover in unextended-unrotated terrain and may contain a fully preserved chalcocite-enriched porphyry copper deposit. The target is a long shot, but if intact, could contain 100 to 200 million tons of chalcocite enriched ore at a grade of 1 to 2.5 % Cu.

If you are interested in examining the data and the property, please sign the attached confidentiality agreement.

Sincerely

  
Joe Wilkins
