James Doyle Sell Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Managing Partner, Chilson Mines'
HC 70, Box 3500
Sahuarita, AZ 85629-9305

Harquahala (La Paz Co.)
Phoenix (Cochise Co.)
Properties

Dear Paul:

Your letter of 5/14/90 has been received, and I'm sorry that the winter season has slipped away without our being able to visit your properties.

Thank you again, the packet of information you loaned us is now in the mail with this letter.

I hope to revisit the Harquahala area again to see how things are progressing and perhaps to firm up your target areas so that we can get together again.

Sincerely,

James D. Sell

M.A. Miller

Harquahala Property
La Paz County, AZ

Contact Mr. John Schieffer, Salome, Arizona, phone: 602/859-3314; or Bill Berridge, Phoenix, phone: 602/843-1516, and find out when you may visit them in the field at the Harquahala Mine area.

Their boss, Mr. John Parrott, says they have 16 million tons of 0.05 opt gold, based on numerous reports, maps, assays, et al. They supposedly have new aerial photos, and maps at same scale, with all the data plotted on same.

All major companies have visited area and contributed to data base.

Asarco can review all this data in the field. Do so, and see if the potential is there; if so, do confirmation sampling in main area to confirm the grade and tonnage potential.

They have done some column leach tests with good results and have some 8,000 tons (?) on leach pad.
