ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

Dear Sir:

Your letter of February 14th has been received concerning some mining claims that you hold.

We are of course interested and would appreciate knowing the number of claims, their general location (section, township, range), any assay or drill data available, and other pertinent facts you have concerning your claims.

Also, your telephone number where we might be able to contact you for further arrangements.

Sincerely,

James D. Sell.

Dear Mr. Kurtz:

This letter is to inquire about interest you may have in acquiring mining claims in Arizona. I have for sale some mining claims that contain a good amount of copper, some silver and gold, and undetermined amounts of uranium, molybdenum and asbestos.

If you would be interested in looking at these claims or finding out more about them, please contact me and I will be happy to make the necessary arrangements.

Sincerely,

Markay E. Hamblin
