Dear Ron,

Thank you for the flights to and from Safford and the assistance in meeting with Wes Becker and Les Billingsley at the Ash Peak Mine earlier this week.

I have data in hand from Wes and from Stephen Quin of Southern Gold. I'm favorably impressed with the geology but will have to await approval from within the Budge organization before delving into any serious study of exploration potential to justify longer term production rate increases and hence Budge's investment. I'm sure Carole O'Brien will keep you posted on behalf of Budge.

Sincerely,

Don White
Geologist, C.P.G.
